Dated 13th December 1917.

The following regulations, etc., are published for the information of those likely to be affected thereby :—

NORWAY.

Translation. REGULATIONS

7th September 1917, relating to Compulsory Passports for Passengers arriving in Norway laid down by the Norwegian Department of Justice in accordance with the Passport Act No. 2 of the 13th July 1917, Section 3 : see Order in Council of 24th August, 1917.

1. Every passenger arriving in Norway must be provided with a passport, even if resident in Norway.

Children over twelve years of age must have a separate passport, even if accompanying an adult.

Norwegian subjects able to prove their nationality by other papers of identity, or in some other manner, are not required to carry a passport.

2. The passport shall state the bearer's full name, profession or employment, birthplace, year and day of birth, fixed domicile, nationality (in what country the bearer has the rights of a State citizen), description, and the object of visiting Norway.

3. The passport must bear, adhering to it, a good photograph of recent date of the bearer, and the stamp (official seal) of the competent authority issuing the passport. One half of the seal must be impressed on the photograph (not on the face), and the other half on the paper of the passport.

The bearer of the passport must write his name on the passport in the presence of the authority issuing the same. The passport must also bear a certificate signed by such authority that the holder is the person shown by the photograph, and that he has personally written his name on the passport.

Furthermore, the passport, which must contain no correction of the text whatever, must bear the official seal or stamp of the authority issuing the same.

4. The passport shall be drawn up in the Norwegian, Swedish, Danish, English, French, or German language, or furnish with a translation into one of these languages, and state the period for which it is valid.

5. The passport shall be endorsed (vise) by the Norwegian Legation or Norwegian *Consul missus* in the country of issue. Other Norwegian Consular Officers can grant an

endorsement (visa) containing permission to enter Norway only if so specially authorised by the Norwegian Foreign Office.

6. The authority referred to in paragraph five can refuse to grant an endorsement (visa) if it appears undesirable, owing to the alleged object of the journey or for other reasons, for the applicant to be admitted into Norway.

In case of doubt on the part of a Norwegian Legation or Consular Officer whether a visa should be granted, the case should be referred for decision to the Norwegian Foreign Office.

7. The Norwegian Department of Justice can grant dispensation from the provisions of paragraph five in the case of subjects of a foreign country which grants admission to Norwegian subjects under the same conditions.

8. On condition of reciprocal treatment, the regulations enjoining compulsory passports are not applicable to persons belonging to the population of the frontier districts of Sweden towards Norway and who are Swedish subjects. Such persons can remain in the adjacent districts in Norway up to 72 hours merely on the production of a certificate from a public authority as to their nationality and residence.

9. Crews of ships arriving in Norway must be provided with passports conforming to these regulations, but need not have them endorsed (vises) in accordance with paragraph five. Should any of the crew leave the ship here, they must at once report themselves personally to the local police who will decide according to the provisions of the Act relating to Foreigners whether a certificate of having reported themselves or a residence book shall be issued to them. If not, the police can at once refuse to admit the applicant.

The officer in command on board is responsible for taking steps to see that these regulations are observed.

10. Persons arriving in Norway must at once report themselves in person to the Police of the district where they pass the frontier or first enter on Norwegian soil: show their passports if required to carry one: and afford the information requested by the Police. This does not, however, apply to the frontier traffic referred to in paragraph eight.

This report of arrival does not exempt the persons arriving from the obligation to report themselves to the Police at the place of stay or destination as required by the provisions of the Foreigners Act.

11. Any person arriving in Norway who is not provided with a passport in cases where such is required, or who omits to comply with the provisions of these regulations in other respects, shall be immediately turned away.

12. The foregoing regulations do not apply to Heads and Members of Foreign Missions or members of their families, nor Diplomatic Couriers.

On the other hand they apply to temporary couriers (including commercial couriers) unless they belong to a country for which an exception is in force in accordance with the provisions of paragraph seven.

All couriers must carry a credential for this their capacity, and a list of the messenger's packages they carry, issued by the proper competent authority, together with a statement of the total weight in kilogrammes of such packages.

13. These regulations come into force on the 20th September 1917, and are valid until further notice. But foreigners arriving in Norway before the 1st November 1917, are not to be turned back owing to lack of a passport in the prescribed form if they have entered on their journey at a date when they cannot be supposed to have received information of these regulations.

AMENDMENTS

of 13th September, 1917, to paragraphs 5 and 7 or New Norwegian Passport Regulations of 7th September 1917.

The Norwegian Department of Justice has made the following amendments in the above regulations, under date 13th September, 1917 :—

Paragraph 5, sentence one, shall run as follows :—

The following shall be added to paragraph 7 :—

"The provisions of paragraph 5 shall not be applicable in the case of aliens arriving in Norway in transit to another country. Such alien must, however, when required by the Passport Control state by what route he is travelling through Norway, show his ticket for the continuation of his journey, and continue his journey without unnecessary delay."

2. As the Swedish Government require visa for persons travelling through Sweden, persons arriving in Norway with the object of proceeding to Russia, but who have not their passports viseed for the journey through Sweden must be prepared that they will not be allowed to enter Norway.

DENMARK.

3. Besides the Danish Legation in London, the following Consular Officers in the United Kingdom have been authorised to vise passports for voyages to Denmark for persons belonging to States into the territory of which Danish subjects are not admitted unless their passports be vised by a diplomatic or consular representative of the States in question, *viz.*:—

The following message issued by His Majesty the King-Emperor is published for general information.

"To My People,

The world-wide struggle for the triumph of liberty is entering upon its last and most difficult phase. The enemy is striving by desperate assault and subtle intrigue to perpetuate the wrongs already committed and to stem the tide of free civilisation. We have yet to complete the great task to which we have dedicated ourselves, and I would call upon you to devote a special day to prayer that we may have the clear-sightedness and strength necessary to the victory of our cause. This victory will be gained only if we steadfastly remember the responsibility resting upon us and in a spirit of reverent obedience ask the blessing of Almighty God upon our endeavours. Let us seek to be enlightened in our understanding and fortified in courage in facing the sacrifices we may yet have to make. I therefore appoint January 6th, the first Sunday in the New Year, to be set aside as a special day of prayer and thanksgiving in all the churches throughout my Dominions."

No. 2831—42.

Extract from the Proceedings of the Government of India in the Home Department (Public), under date Calcutta, the 8th December 1899.

RESOLUTION.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country, and by students who, owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England, the desirability of providing themselves before their departure from India, with an authoritative certificate of identity, in the form appended to this Resolution, signed by the head of the district (in a Presidency Town, the Commissioner of Police) in the case of residents of British India and by the Political Officer in that of residents of

Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer (in a Presidency Town, the Commissioner of Police) or Political Officer, as the case may be.

Proceedings of the Government of His Highness the Maharaja of Mysore.

No. FL. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and

address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of $\frac{1}{16}$ per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,
Financial Secretary.

OFFICE OF THE COMPILER, *MYSORE GAZETTE.*

NOTICE.

1. The *Mysore Gazette* is published at Bangalore every Thursday. Matter for publication in the Gazette is often sent late to the Press. 2. Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect, stating the number of copies, should be made at foot of such manuscript.

3. If no instructions accompany any matter, it will be published only once.

4. Applications for the supply of the Gazette on *Public Service* should be made to the Chief Secretary to the Government of Mysore.

No money orders or cash will be received by the undersigned except from parties outside the Province.

9. Much inconvenience is caused to this office by subscribers omitting to give their full and correct addresses and writing illegibly on the money order coupons.

10. Communications on post cards or on paper less than half a sheet of foolscap, will not receive attention; and no communication should be sent on Government Service by private parties.

11. An efficient system of check and counter-check is maintained over the despatch of Gazette copies forwarded through post. Duplicates cannot be supplied in any case of non-delivery.

OFFICE OF THE COMPILER, MYSORE GAZETTE.

NOTICE.

1. The *Mysore Gazette* is published at Bangalore every Thursday. Matter for publication in the Gazette is often sent late to the Press. This involves considerable inconvenience to the Press and expense to Government. All matter intended for publication in Parts II, III, IV, V and VI should therefore reach this office not later than Tuesday evening, and that for Part I not later than the forenoon of Wednesday for the following Thursday's issue of the Gazette.

2. Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect, stating the number of copies, should be made at foot of such manuscript.

3. If no instructions accompany any matter, it will be published only once.

4. Applications for the supply of the Gazette on *Public Service* should be made to the Chief Secretary to the Government of Mysore.

5. Under Government Proceedings No. G. 622-32—G. M. 74-10-36, dated 27th July 1911, and Government Proceedings No. G. 4914-23—G. 6. Under Government Proceedings No. 2633-41—Mis. 558, dated 21st August 1900, the English or the Kanarese portions of the *Mysore Gazette* will be supplied at *half* rates to the members of the Mysore Representative Assembly during their tenure of office as such members.

7. All subscriptions and advertisement charges are payable *in advance*.

8. As Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts or private parties, all such moneys should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders or cash will be received by the undersigned except from parties outside the Province.

9. Much inconvenience is caused to this office by subscribers omitting to give their full and correct addresses and writing illegibly on the money order coupons.

10. Communications on post cards or on paper less than half a sheet of foolscap, will not receive attention; and no communication should be sent on Government Service by private parties.

11. An efficient system of check and counter-check is maintained over the despatch of Gazette copies forwarded through post. Duplicates cannot be supplied in any case of non-delivery.

GENERAL.

No. G. 9958—G. M. 328-17-4, dated 22nd January 1918.

The following press notice issued by the Consul-General for the United States of America at Calcutta, dated the 10th November 1917, is hereby republished for general information :—

NOTICE TO PERSONS PROCEEDING TO THE UNITED STATES OF AMERICA.

Under recent regulations issued by the United States Government, every person leaving a foreign country for the United States with the purpose of entering, passing through or touching at a port of the United States, shall be required before he is permitted to enter the United States, to present a valid passport or other official document in the nature of a passport satisfactorily establishing his identity and nationality with a signed and certified photograph of the bearer attached. A wife or female child under 21 years of age, or male child under 16 years of age, may be included in the passport of the husband or parent, but a photograph of each must be attached to such passport. Each male child 16 years of age or over must carry a separate passport.

Each passport of an alien must be visaed by an American Consulate in the country in which the holder *starts upon his trip to the United States.* If the country from which he *starts on his trip to the United States is not the country to which he* owes allegiance, he must also have his passport visaed by the Consular Officer therein of his own country. Moreover, every alien coming *to the United States must have his passport or document* in the nature of a passport visaed by a Consular Officer of the United States in the country from which he embarks for the United States.

For the purpose of ascertaining the identity, nationality and object of aliens entering the United States, each alien, except a duly accredited official, must furnish to the American Diplomatic or Consular Officer who visaes his passport in the foreign country from which he starts for the United States and to the American authorities at the port of entry or elsewhere in the United States, a written declaration setting forth the bearer's name, occupation and nationality, and the names and places of birth of the members of his immediate family who accompany him. Each declaration must be affirmed or sworn to before a Consular Officer and signed in triplicate and a photograph of the declarant must be attached to each copy. The declaration must be made at least two weeks before the date of intended departure, except in cases of extraordinary emergency. A form of declaration is given below and sets forth the information required from every alien proceeding to the United States.

This Consulate General is prepared to visa passports of all aliens proceeding from this port to the United States under the rules given above and to accept their declaration in the form shown, but for the further information of such persons and to avoid, in so far as possible, the hardships and dangers involved in deportation under present conditions, a transcript of Section 3 of the United States Immigration Act of February 5, 1917, is given below. Before visaing passports this office will require the fullest information from the holder to ascertain whether or not he comes within the category of those excluded from entering the United States under the operations of the Immigration Act.

JAMES A. SMITH,
American Consul-General.

Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting and thereby causing inconvenience to the Press and waste of money. No. G. 10603—G. M. 488-17-2, dated 2nd February 1918.

The following Memorandum No. G. 537, dated the 26th December 1917, from the Government of India, Indian Munitions Board, Delhi, is published for general information :—

" Owing to the extreme difficulty of obtaining tin, iron and steel sheets for the manufacture of drums and other receptacles for articles such as paints, oils, etc., it is essential that care should be taken in the preservation of such receptacles in order that the fullest use possible may be made of them.

2. Complaints have been made to the Indian Munitions Board that manufacturers find great difficulty in getting customers to return receptacles in which goods have been sent out manufacturers charge only a nominal amount for these receptacles and customers apparently consider that they are at liberty to retain the receptacles after payment of this nominal charge. It should, however, be realised that when receptacles have been specially made for a manufacturer's products it is highly desirable that they should be returned to the manufacturer for refilling rather than that they should be sold in the bazaar even when higher prices than the nominal prices charged by the manufacturers can be obtained.

3. The Government of India, therefore, trust that all officials will do their best to preserve all metal receptacles and whenever desired will return them to the manufacturers in good condition for refilling."

No. R. 7942—*L. R.* 338-15-9, *dated* 31*st January* 1918.

INVITING OPINION ON CONSTITUTION OF NEW TALUKS BY THE ABOLITION OF SUB-TALUKS.

The question of abolishing Sub-Taluks and constituting new Taluks in their place wherever necessary by territorial readjustment, has been engaging the consideration of Government for some time past. The matter has been also frequently pressed upon Government by the public and the Members of the Representative Assembly.

2. The question has not been carefully considered and the proposals before Government are as follows:—

(i) The marginally noted seven Sub-Taluks may be constituted into seven Taluks by the addition of a few villages from the adjoining taluks. The headquarters of the new Taluks may be the same as those of the Sub-Taluks, except in the case of No. 6 (Narasimharajapura) which will have Balehonnur as headquarters.

1. Closepet.
2. Gudibanda.
3. Koratagere.
4. Turuvekere.
5. French Rocks.
6. Narasimharajapura.
7. Harihar.

(ii) The remaining two Sub-Taluks of Alur and Kumsi, may be abolished and absorbed in the Taluks of Hassan and Shimoga respectively.

3. Government will be prepared to consider objections to these proposals, or other suggestions in respect of them, from the public, if preferred within a period of three months from the date of this notification. The proposals are embodied in the appendix.

APPENDIX.

Comparative statement showing the present Sub-Taluks, their area, population, etc., as compared with the Taluks proposed to be created in their place, by absorbing with them a few villages from the neighbouring Taluks :—

FINANCIAL.

No. Fl. 5102—*G. F.* 84-16-2, *dated 7th March* 1917.

Government are pleased to notify for the information of the public that the facilities afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the following debentures :—

1. Kolar District Railway.
2. Chitaldrug District Board Railway.
3. Shimoga District Board Railway.
4. Chitaldrug Town Water-supply.

2. Intending purchasers and sellers of all these debentures may apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. Fl. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will apply in their entirety to the sale and purchase transactions of all these Debentures.

Proceedings of the Government of His Highness the Maharaja of Mysore.

No. FL. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register *aforesaid* should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of $\frac{1}{16}$ per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,
Financial Secretary.

The following Press Communique issued by the Government of India is hereby republished for general information:—

"At the request of the Ministry of Munitions and in order to decrease the exports of tin plates from the United Kingdom, the various Oil Companies operating in India agreed, in January 1917, to endeavour to substitute as far as possible sales of oil in bulk for sales in tins. With this end in view and as a temporary war measure, the price of oil in tins was increased in January 1917, by ten annas per two-tin unit, the price of oil not in tins remaining the same as before. The prolongation of the war has rendered necessary further measures in the direction already taken and in view of the increased cost of the production of tins and the fact that the price of old tins is approaching, if it has not already exceeded, the price of new tins, the price of oil in tins will now be advanced by a further increase of 8 annas per two-tin unit. The price of oil not in tins will remain the same as before. Thus the price of the two-tin unit (eight gallons) of Victoria oil in tins ex Budge, Budge will be Rs. 4-10-0 but the price of Victoria oil not in tins will remain as at present, namely Rs. 2-14-0 for eight gallons. Steps have already been taken during the course of the past year by the railways in India to facilitate the distribution of oil in bulk, and by the oil companies to increase sales in bulk. Further measures are in progress to increase the facilities available to the public for obtaining oil in their own receptacles at bulk oil rates."

2. Gudibanda.
3. Koratagere.
4. Turuvekere.
5. French Rocks.
6. Narasimharajapura.
7. Harihar.

(ii) The remaining two Sub-Taluks of Alur and Kumsi, may be abolished and absorbed in the Taluks of Hassan and Shimoga respectively.

3. Government will be prepared to consider objections to these proposals, or other suggestions in respect of them, from the public, if preferred within a period of three months from the date of this notification. The proposals are embodied in the appendix.

APPENDIX.

FINANCIAL.

No. Fl. 5102—*G. F.* 84-16-2, *dated 7th March* 1917.

Government are pleased to notify for the information of the public that the facilities afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the following debentures :—

1. Kolar District Railway.
2. Chitaldrug District Board Railway.
3. Shimoga District Board Railway.
4. Chitaldrug Town Water-supply.

2. Intending purchasers and sellers of all these debentures may apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. Fl. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will apply in their entirety to the sale and purchase transactions of all these Debentures.

4. Deputy Commissioners are requested to arrange for English and Kannada copies of this notification being posted in all District and Taluk Treasuries.

Proceedings of the Government of His Highness the Maharaja of Mysore.

No. FL. 873-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of $\frac{1}{16}$ per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,
Financial Secretary.

OFFICE OF THE COMPILER, MYSORE GAZETTE.

NOTICE.

1. The *Mysore Gazette* is published at Bangalore every Thursday. Matter for publication in the Gazette is often sent late to the Press. This involves considerable inconvenience to the Press and expense to Government. All matter intended for publication in Parts II, III, IV, V and VI should therefore reach this office not later than Tuesday evening, and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

2. Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect, stating the number of copies, should be made at foot of such manuscript.

3. If no instructions accompany any matter, it will be published only once.

4. Applications for the supply of the Gazette on *Public Service* should be made to the Chief Secretary to the Government of Mysore.

5. Under Government Proceedings No. G. 622-32—G. M. 74-10-36, dated 27th July 1911, and Government Proceedings No. G. 4914-23—G. M. 46-11-36, dated 18th March 1912, the English or the Kanarese portion of the *Mysore Gazette* will be supplied to Shanbhogs, Patels, Nad Patels and Shekdars within the Province at *half* rates on production of a certificate from the Amildar of the taluk to the effect that such applicant is *bona fide* on duty at the time.

6. Under Government Proceedings No. 2633-41—Mis. 558, dated 21st August 1900, the English or the Kanarese portions of the *Mysore Gazette* will be supplied at *half* rates to the members of the Mysore Representative Assembly during their tenure of office as such members.

7. All subscriptions and advertisement charges are payable *in advance*.

8. As Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts or private parties, all such moneys should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders or cash will be received by the undersigned except from parties outside the Province.

9. Much inconvenience is caused to this office by subscribers omitting to give their full and correct addresses and writing illegibly on the money order coupons.

10. Communications on post cards or on paper less than half a sheet of foolscap, will not receive attention; and no communication should be sent on Government Service by private parties.

11. An efficient system of check and counter-check is maintained over the despatch of Gazette copies forwarded through post. Duplicates cannot be supplied in any case of non-delivery.

OFFICE OF THE COMPILER, MYSORE GAZETTE.

NOTICE.

1. The *Mysore Gazette* is published at Bangalore every Thursday. Matter for publication in the Gazette is often sent late to the Press. This involves considerable inconvenience to the Press and expense to Government. All matter intended for publication in Parts II, III, IV, V and VI should therefore reach this office not later than Tuesday evening, and that for Part I not later tha the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

2. Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect, stating the number of copies, should be made at foot of such manuscript.

3. If no instructions accompany any matter, it will be published only once.

4. Applications for the supply of the Gazette on *Public Service* should be made to the Chief Secretary to the Government of Mysore.

5. Under Government Proceedings No. G. 622-32—G. M. 74-10-36, dated 27th July 1911, and Government Proceedings No. G. 4914-23—G. 6. Under Government Proceedings No. 2633-41—Mis. 558, dated 21st August 1900, the English or the Kanarese portions of the *Mysore Gazette* will be supplied at *half* rates to the members of the Mysore Representative Assembly during their tenure of office as such members.

7. All subscriptions and advertisement charges are payable *in advance*.

8. As Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts or private parties, all such moneys should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders or cash will be received by the undersigned except from parties outside the Province.

9. Much inconvenience is caused to this office by subscribers omitting to give their full and correct addresses and writing illegibly on the money order coupons.

10. Communications on post cards or on paper less than half a sheet of foolscap, will not receive attention; and no communication should be sent on Government Service by private parties.

11. An efficient system of check and counter-check is maintained over the despatch of Gazette copies forwarded through post. Duplicates cannot be supplied in any case of non-delivery.

No. 5108—*Med.* 33-17-8, *dated* 15*th March* 1918.

The following revised Memorandum issued by the Government of Madras for the guidance of persons proceeding to the Pasteur Institute at Coonoor for anti-rabic treatment is published for general information :—

MEMORANDUM OF INFORMATION FOR THE GUIDANCE OF PATIENTS PROCEEDING TO COONOOR FOR ANTI-RABIC TREATMENT AT THE PASTEUR INSTITUTE.

Coonoor is situated on the Nilgiri Hills about 6,000 feet above sea level and can be reached by the Nilgiri Railway from Mettupalaiyam in about three hours.

2. Mettupalaiyam is on the south-west branch of the South Indian Railway and is easily accessible from all parts of Southern India. The Institute is about a mile from the Coonoor Railway Station.

3. *Climate.*—The temperature of Coonoor ranges between 60° F. and 75° F. from March to September and between 40° F. and 60° F. from October to February.

4. The rainfall is about 70 inches, the greater part being received during the north-east monsoon in October, November and December.

5. Persons coming from the plains require fairly warm but not heavy clothing and bedding. Indigent Indian patients will be supplied with blankets.

6. *Accommodation.*—There are several hotels and boarding-houses which are open all the year round and also a residential club.

(a) Europeans and Eurasians are not accommodated at the Institute but must make their own arrangements for board and lodging about which there is no difficulty. Persons who cannot afford hotel rates can find inexpensive lodgings in the town within three-quarters of a mile of the Institute.

(b) Well-to-do Indians can find houses in convenient situations and others can arrange for lodging and meals in the town. Indigent patients are accommodated in the free quarters in the Institute compound and will be provided with blankets and cooking pots.

(c) British soldiers and their families stay in the sanitarium at Wellington and are sent daily to the Institute in a tonga.

(d) Soldiers of Indian regiments will be accommodated in tents in the Institute compound.

7. Patients who are sent by or at the expense of private employers, friends or other private persons or associations should be provided by them with the cost of their return journey and also with sufficient money to pay for their food during the course of treatment, which lasts fourteen days. If desired, money for these purposes may be sent to the Director of the Institute, and this course is strongly recommended in the case of menial servants and illiterate or other irresponsible people.

8. *Treatment.*—Patients when bitten by an animal unless it has disappeared or been killed (in which case if rabies be suspected they should proceed to Coonoor for treatment immediately) are advised to consider the following points before deciding to undergo a course of anti-rabic treatment :—

(i) A rabid animal may be furious or it may be paralysed;

(ii) an animal may be rabid without being afraid of water;

(iii) an animal is never infective more than ten days before it becomes rabid;

(iv) treatment is only necessary in the case of bites which have broken the skin, or when the saliva has come in contact with a fresh abrasion;

(v) the risk of infection has become very small two months after the person has been bitten;

(vi) never kill the animal until certain that it is rabid; but see that it is impossible for it to bite any one else; if it lives for ten days after biting any one, treatment is not necessary;

(vii) if the dog is suspected to be rabid, do not wait until the brain has been examined, as a negative result of the examination is inconclusive.

After it has been decided to undergo a course of treatment, no time should be lost in proceeding to Coonoor as the earlier the treatment is commenced the better.

9. All treatment at the Institute is free, but patients in a position to do so are expected to contribute something towards its upkeep. The course of treatment lasts fourteen days and patients are not laid up but can go about as usual having regard to the rules of life recommended. Patients should always endeavour to bring with them the brain of the animal that bit them, one-half in pure glycerine and the other half in a mixture containing 3 per cent of bichromate of potash and 5 per cent glacial acetic acid in distilled water.

Rules for the grant of concessions to Government servants and to indigent persons not employed in the public service to enable them, when bitten by rabid animals, to proceed to the Pasteur Institute at Coonoor for treatment.

I.—CONCESSIONS TO GOVERNMENT SERVANTS.

1. Government servants in these rules means a Government servant whether temporary or permanent paid from Imperial or Provincial funds or from Port and Marine funds administered by Government, but does not include a Government servant on foreign service or in Municipal or Local Fund service.

2. Any Government servant who has been bitten by a rabid animal and who is too poor to proceed to Coonoor at his own expense may, provided that he is drawing not more than Rs. 100 a month, be granted—

(i) His actual travelling expenses to Coonoor and back, *viz.*, (a) a single fare each way by railway of the class by which he is entitled to travel on duty, (b) for journeys by road or river the actual cost of transit, not exceeding the amount admissible under rule. The expenses for the return journey should be paid to the patient at Coonoor after the treatment is finished, by the Treasury Officer at that station, on production of a discharge certificate from the Director of the Institute.

(ii) An advance of one months' pay.

(iii) One month's casual leave, any leave required in excess being treated as privilege or sick leave. Provided that if the absence of such Government servant makes it necessary for a substitute to be appointed, the period of absence up to one month may, under orders of Government, be treated as extra privilege leave instead of casual leave.

NOTE.—The words "not more than Rs. 100 a month" occurring in this rule and the word "pay" occurring in this and subsequent rules should be interpreted as referring to "monthly substantive pay" as defined in Article 38, Civil Service Regulations. In the case of holders of temporary appointments, the pay or acting allowance which they draw in their temporary or officiating posts respectively should be taken as substantive pay.

3. Any Government servant who has difficulty in finding at once the means to enable him to proceed to the Coonoor Institute, and whose pay exceeds Rs. 100 but does not exceed Rs. 500 a month, may be granted an advance not exceeding the amount admissible under rule 2 (i), and may also be granted an advance of one month's pay and one month's casual leave, provided that if the absence of such Government servant makes it necessary for a substitute to be appointed, the period of absence up to one month may, under orders of Government, be treated as extra privilege leave and not as casual leave. Any further leave required should be privilege or sick leave.

4. Any Government servant drawing not more than Rs. 500 a month, a member of whose family is bitten by a rabid animal and who has difficulty in finding at once the means of sending him or her to the Pasteur Institute at Coonoor may be granted an advance not exceeding the actual travelling expenses admissible under rule 2 (i) plus one month's pay. If he does not draw more than Rs. 100 a month, an advance of the travelling expenses of an attendant, if necessary, may be given to a similar amount and subject to the same conditions of recovery (see below) as for the patient. In the case of Government servants whose pay does not exceed Rs. 50 (or in the case of those drawing over Rs. 50, but not more than Rs. 100 where special circumstances exist) the recovery of the amount advanced as travelling expenses of the attendant may be waived altogether or in part if the head of the department thinks fit. The head of the department may also in special cases waive the recovery of the amount advanced for the travelling expenses of members of families of Government servants whose pay does not exceed Rs. 50 a month.

5. Government servants drawing more than Rs. 25 per mensem proceeding to the Pasteur Institute for treatment should bear the cost of their maintenance both during the journey and while under treatment at the Institute. Those drawing not more than Rs. 25 per mensem are entitled to maintenance allowance during treatment as well as during the journey to and from the Pasteur Institute at the rates of daily allowance admissible to officers of the third and fourth classes as the case may be under Article 1063 of Civil Service Regulations.

6. The officers of the Madras Presidency mentioned in Appendix A are authorised to grant the abovementioned concessions to Government servants employed under them or subject to their authority.

7. The despatch of every Government servant to the Coonoor Institute for treatment should at once be reported to the officer immediately superior to the officer by whom the patient is sent, and by that officer, if he is not the head of the department, to the head of the department. Where the head of the department himself sends the person, no further report will be required. A report should also at once be made direct to the Director of the Pasteur Institute, Coonoor, in the form given in Appendix D.

NOTE.—No amount can be drawn from the Coonoor sub-treasury until this information is received at the Pasteur Institute.

8. The Director of the Institute may, on the production of satisfactory proof of identity and of adequate evidence that the patient, if a Government servant, did not receive an advance of one month's pay admissible to him under these rules as a recoverable loan, grant to such a Government servant an advance not exceeding one month's pay, intimating the grant to the head of the department to which the Government servant belongs with a view to the recovery of the sum advanced from his salary is not less than three but not more than twelve monthly instalments. The proof furnished by the Government servant will be made a voucher and the charge will be recovered by the Director from the officer in charge of the sub-treasury at Coonoor who will arrange to pass it on to the district concerned. Subject to the same conditions of proof and recovery the Director may also make in very special cases a further advance not exceeding half a month's pay to a Government servant who has already received an advance of one month's pay before his departure for Coonoor but has run short of funds while under treatment. Any of the above advances may also be granted to a Government servant, subject to the above conditions of proof and recovery, if applied for by him on account of a member of his family undergoing treatment at the Institute.

9. The Director's discharge certificate should be prepared in duplicate: one copy of it should be despatched by him to the Government servant responsible for the original advance, and the other copy should be attached to the bill for the travelling allowance for the return journey which will be presented for payment at the Coonoor treasury.

10. The bill for travelling allowance for the return journey should be at the same rates as were allowed for the journey to the Institute and should also be supported by the original intimation received from the officer who is responsible for the original advance. (*a*) An indigent person not in the public service (together with one attendant, when such indigent person is a woman or is a child under 16 years of age, or is a man who, by

reason of age or other sufficient cause, is incapable of travelling alone) will be granted third class tickets free of charge;

(b) tickets for the return journey will be issued on production of a certificate signed by the authorities of the Pasteur Institute;

(c) only one attendant as above will be allowed with each patient or each party of patients of the same family;

(d) the requisition for tickets must have the impression of the official seal of the office from which issued; it must be signed by one of the authorities mentioned in Appendix B.

Erasures and alterations in a requisition must be initialled by the issuing officer.

(e) A certificate in the form printed as Appendix C should be filled in by the despatching officer and presented to the stationmaster when application is made for the grant of free third-class tickets or passes to Coonoor.

16. The patient may be paid in advance the actual cost of transit for journeys by road or by river, when necessary, and maintenance allowance for the period of his journey to Coonoor. He should take with him to Coonoor and produce before the Director of the Institute a certificate signed by the officer despatching him that he has been sent to the Institute for treatment at the expense of Provincial revenues or by Local or Municipal funds.

17. The maintenance allowance of the patient while under treatment at Coonoor and for the period of the return journey, and also, if necessary, the cost of transit for journeys by road or by river on the return journey, will be disbursed by the Director, Pasteur Institute, Coonoor, in the first instance and subsequently recovered from the sub-treasury, Coonoor, on production of a discharge certificate.

18. The Director's discharge certificate should be prepared in duplicate. One copy should be despatched by him to the Government servant responsible for the original advance, and the other should be attached to the bill for travelling allowance for the return journey when presented for payment at the Coonoor treasury.

19. The bill for travelling allowance for the return journey should be at the same rates as were allowed for the journey to the Institute and should be supported by the intimation received from the officer responsible for the original advance.

20. Maintenance charges for days spent at Coonoor and for the days of the return journey may be advanced on separate bills drawn by the Director who will certify thereon the days that the patient was under treatment or that will be occupied in the journey.

21. Any indigent person who is (a) a woman, (b) a child under 16 years of age or (c) a man incapable by reason of age or other sufficient cause of travelling alone, may be allowed to be accompanied by not more than one attendant (except in the cases provided for in the note below), the cost of such attendant being debited, if no railway concession is granted, to the same fund to which the charges on account of the patient are debited. Such attendant or attendants may be granted travelling expenses and maintenance allowance at the rate sanctioned for patients and also wages not exceeding four annas a day, in cases where the despatching officer is satisfied that the patient is unable to pay the daily expenses of the attendant or attendants. (This concession is also admissible to Government servants drawing not more than Rs. 100 a month. The case of members of their families is regulated by rule 4 above.)

NOTE.—More than one attendant may be allowed on the authority of one of the authorities mentioned in Appendix B in special cases, as *e.g.*, when the patient is a child unable to travel without the mother or other woman in charge who also requires an attendant, or when the patient is a woman and in addition to one attendant is compelled to take one or more children with her.

22. The despatch of each indigent person to Coonoor for treatment at the public expense should at once be reported to the Director of the Institute in the form given in Appendix D. A report should also be sent to the Chairman of the municipal council or the President of the local board concerned, if the area from which the patient is despatched is within the limits of a municipal town or of a local board; and in every case a report should also at once be sent to the Accountant-General.

The report should state

(a) the amount of travelling allowance (by rail, road or river) advanced;

(b) the number of days for which and the rate at which maintenance allowance has been advanced;

(c) whether it is proposed that the cost should be borne by Provincial revenues or by Municipal or Local funds.

23. The expenses incurred in the treatment of indigent persons should be debited to

(a) *Municipal funds*, where the person sent resides within the limits of a municipality,

(b) *Local funds*, where the residence is outside a municipality, but in a tract where the Madras Local Boards Act, 1884, is in force,

(c) *Provincial revenues*, in all other cases.

The expenditure under Provincial revenues should be debited to a special detailed head, *viz.*, "32. MISCELLANEOUS—*Miscellaneous and unforeseen charges*—Charges for the treatment of patients at the Pasteur Institute."

24. The Director may make advances to indigent persons who come to Coonoor at their own expense, but are unable to maintain themselves there or to pay for their return journey. The possibility of recovering these advances should then be investigated in the following manner. The Director should correspond direct with the officers in charge of the districts to which the patients, to whom advances have been made, say they belong, and should ask them to take over for investigation claims in respect of the advances made. District officers should take over these claims as soon as they are satisfied that the persons who received the advances actually belong to their districts, and should inform the Director that they have done so. The Director should then recover the amounts advanced, from the treasury, producing the district officers' 'acceptances', as vouchers, and the claims should then be passed on to the provinces concerned—to be adjusted as the amounts advanced are recovered or written off under the local rules. Any sum which is found to be irrecoverable after being passed on to a district officer will be debited to the province concerned as a provincial charge under the head "32. MISCELLANEOUS—*Miscellaneous and unforeseen charges*—Charges for the treatment of patients at the Pasteur Institute, Coonoor." Otherwise, *i.e.*, if no district officer takes over the claim, it will be adjusted finally under the same head in the books of the Accountant-General, Madras.

25. With regard to indigent patients who are sent for treatment from the Pasteur Institute to the Municipal Hospital, Coonoor, the Director may, in the first instance, defray the expenses connected with their diet and in case of death, of their burial or cremation, as the case may be, and recover the cost in accordance with the procedure laid down in rules 20 and 24.

Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect, stating the number of copies, should be made at foot of such manuscript.

3. If no instructions accompany any matter, it will be published only once.

The capital cost of the scheme was originally roughly estimated at one lakh of rupees and the Government directed that the scheme should

be financed by a loan to be raised by the Chitaldrug Municipal Council under a Government guarantee in the town and district of Chitaldrug. As authorised by Government, a debenture loan of one lakh of rupees was floated under the prospectus issued in March 1916. The loan has already been subscribed to the full extent.

1. The loan will bear interest at 6 per cent per annum payable half-yearly on the 1st January and 1st July of every year.
2. The loan will run for a period of 15 years and will then be repayable at par.
3. The repayment of the loan and the payment of interest are both guaranteed by Government.
4. The Government and the Chitaldrug Municipality reserve to themselves the option to pay off the whole or any portion of the loan at par at any time after five years after giving a previous notice of six months to the debenture holders by publication in the Gazette.

3. Debentures of the marginally noted description to the value of one lakh of rupees are now open for subscription by the public including such local bodies as may decide to invest in the same. The loan is open to the public throughout the Mysore State, but applicants residing in the Chitaldrug District will have preference in respect of all applications presented on or before 10th February 1918. Applications for debentures in the prescribed form hereto annexed together with the 1st instalment of not less than 12½ per cent of the amount applied for in the case of debentures of the value of Rs. 100 and five rupees in the case of debentures of the value of Rs. 25 and Rs. 2 in the case of those of the value of 6¼ may be presented at any Government Treasury in the State. SANITARY DEPARTMENT.

ERRATUM.

For "N. Narasimhamurthi Rao" and "N. Sampangi Ramiah" in the list of passed candidates published on page 59 Part II of the *Mysore Gazette*, dated the 10th January 1918, please read "H. Narasimhamurthi Rao" and "H. Sampangi Ramiah" respectively.

V. L. MANKER,
For *Sanitary Commissioner.*

PROCEEDINGS OF THE CENTRAL SANITARY BOARD IN MYSORE.

READ—

Letter No. 12295, dated the 19th November 1917, from the Chief Engineer for Irrigation, forwarding a project amounting to Rs. 2,10,000, for water-supply to Arsikere town, inclusive of supplying 60,000 gallons per day to the Railways.

Resolution No. 8, *dated* 15*th January* 1918.

Resolved that although the proposal to supply water by gravitation from Harnahalli tank is the cheapest, both in initial cost and maintenance, the amount of estimate is too high for a small town like Arsikere. The Municipality having since passed a resolution that the scheme is too costly for them to bear their share of the initial and recurring expenses, the Sanitary Board recommend the consideration of the question of sinking an adequate number of wells in the town and fitting them up with hand pumps, in lieu of the proposed scheme for a piped water-supply.

READ—

Letter No. 12320, dated the 20th November 1917, from the Chief Engineer for Irrigation, forwarding two projects relating to the improvement of water-supply to Chintamani town, one for increasing the catchment area of Kanamakunta tank at an estimated cost of Rs. 7,600 and the other for installing sand filters and replacing the 5th main for a certain length by masonry conduit, the estimated cost being Rs. 52,566.

Resolution No. 9, *dated* 15*th January* 1918.

Resolved that the pressing need in connection with the water-supply at present is to increase the capacity of the tank so that it can hold sufficient water to last the whole year. The Board therefore recommend that the work of opening the feeder channel may be taken up at once and that the arrangements proposed for the filtration of water may be deferred.

READ—

Letter No. 12028, dated the 12th November 1917, from the Chief Engineer for Irrigation, forwarding an estimate amounting to Rs. 26,504, for filling the Bennehardenhalli feeder channel and draining the Lakshmipuram valley in Mysore.

Resolution No. 10, *dated* 15*th January* 1918.

Resolved that the improvement proposed is very necessary and that the estimate therefor be approved.

READ—

Letter No. 669, dated the 31st October 1917, from the Chief Engineer for Irrigation, forwarding a project for water-supply to the Seringapatam town, by pumping water from the river by means of a hydraulic ram to a service reservoir located in the highest part of the town and distributing therefrom, the estimated outlay being Rs. 75,370 and the annual maintenance charges Rs. 1,200.

Resolution No. 11, *dated* 15*th January* 1918.

Resolved that the scheme be approved and that lifting water by hydraulic ram be recommended. The Board consider that, in the case of Seringapatam town, a drainage scheme should go hand in hand with a water-supply project and that the effect of piped water-supply alone, without drainage, will be to render the town more malarious than ever before.

2. The daily allowance of water per head per day proposed in the estimate may be reduced from 12½ to 10 gallons.

READ—

Letter No. 11598, dated the 26th October 1917, from the Chief Engineer for Irrigation, forwarding a project for the water-supply to Tumkur Town, the works consisting of :—

(1) the addition of extra catchment to the Mydala tank by opening out a new feeder channel from Urdegere side (cost Rs. 30,970), restoring the old feeder channel from Deva-

rayadurga hills (cost Rs. 33,430) and raising the weir of the tank from R. L. 100·00 to 103·00, (cost Rs. 22,330) and

(2) construction of a main, consisting partly of a pipe-line under pressure and partly of a conduit and provision of sand filters, a service reservoir and stand pipes for distribution (cost of the scheme with a cast iron delivery main throughout, Rs. 2,68,256, and with partly concrete conduit, Rs. 2,00,127).

Resolution No. 12, *dated the* 15*th January* 1918.

Resolved that in view of the growing importance of the town, a scheme for piped water-supply is urgently needed and that the project as now proposed be recommended.

2. The Board, however, consider that the proposed feeders which will run through hilly and uneven country are much too costly to maintain and that excepting when the rainfall is above the average there is not much expectation of the yield from the catchment filling the Mydala tank. The estimated net annual consumption of water in the town being only about 40 units, the Board suggest that the question of increasing the catchment area of the tank may advantageously be deferred for future consideration.

READ—

Before proceeding to the business of the Agenda, the Vice-Chancellor said he was glad to welcome the new members of the Senate and he offered a special welcome to Sri K. D. Rukminiamma, B.A., as probably the first lady-member of any University Senate in India.

The following questions were then answered by the Vice-Chancellor:—

I. *Question* by Mr. M. T. Narayana Iyengar.—In connection with the next B.A. Degree Examination is it proposed to take any action to give effect to Ordinance 72, *viz.*, "Credit shall be given for regular work and progress during the years of study at the University."

If not, is it not desirable to appoint a Committee to draw up a definite scheme (suitable for subjects like Mathematics wherein regular work and progress cannot be tested by library and laboratory note-books), so that it may be given effect to in the following years?

Answer.—The question relating to the supervision of laboratory work of students in Physics and Chemistry has been referred to Messrs. Metcalfe and Usher. No report has been received. It has been decided to refer the whole question to the Faculties, and if necessary the Boards of Studies, to prepare a comprehensive scheme for future years. At the coming B.A. Examination, effect will be given to the Ordinance as far as practicable.

II. *Questions* by Mr. B. Venkatanaranappa.—

1. [Ordinance No. 51 (new).]

Q.—(*a*) What is the procedure adopted when a candidate has been successfully returned by more than one electorate?

A.—He is taken as elected by one of the electorates according to the discretion of His Highness the Chancellor.

Q.—(*b*) Did any case of this kind occur at the last election?

A.—Yes.

Q—(*c*) Why may not the fact of a candidate having been successfully returned by more than one electorate be published?

A.—There seems to be no particular use in doing so.

2. [Ordinance No. 85 (new).]

Q.—(*a*) Should the number of scholarships be also taken into account in calculating the number of free-studentships awardable in each class?

A.—Yes.

Q.—(*b*) If so, in view of the fact that special scholarships such as the Backward Community scholarships, Lady scholarships, Mahomedan and Pollegar scholarships are awarded on special considerations, could not these be left out of account in calculating the 33 per cent of the total number of students in each class, to whom free-studentships may be awarded?

A.—A revision of the rule is suggested.

The question has been referred to Government and is pending orders.

Q.—(*c*) Could not the Committee referred to in this clause of the Ordinances be empowered to allocate the free-studentships without having to wait for sanction of all the scholarships?

A.—There is no objection as a general rule, but this year it has been impossible because the question of the number of freeships is still before Government.

III. [Ordinance No. 98 (new).]

Q.—(*a*) What steps have been taken by the University to enforce the observance of this clause of the Ordinances?

A.—Committees have been appointed in both places, and some action has been taken. A report has been called for.

Q.—(*b*) Does the University contemplate providing proper accommodation to, and suitable arrangements for supervision over, such of the University students as are too poor to reside in the University Hostels?

A.—The suggestions of the Committees will be called for.

1. That the Faculty of Oriental learning be instituted under the University as recommended by the Committee appointed for the purpose and as further explained in the note of Dewan Bahadur Mr. J. S. Chakravarti.

Dewan Bahadur Mr. J. S. Chakravarti proposed to modify the proposition in accordance with the terms of the amendment of which he had given notice and which appeared in the Supplemental Agenda.

In moving the proposition, he gave a brief outline of the history of the question and then explained the broad features of the scheme as recommended by the Select Committee. He showed how the matter began to receive consideration even before the University was started. He thought a separate Faculty for Sanskritic studies was necessary, as the existing system of Sanskrit education did not meet all requirements. The creation of a separate Faculty of Oriental learning would do much to give dignity and tone to and to develop the study of Sanskrit. He appealed to the Senate to preserve and foster and cherish the ancient culture of the land by establishing an Oriental Faculty.

Rao Bahadur Mr. M. C. Rangiengar in seconding the proposition referred to the prevailing methods of study, and explained how the scheme would enable students to obtain a real mastery over the language and to communicate their thoughts to the outside world.

Mr. C. R. Reddy opposed the motion and said that Mr. Chakravarti's proposition was not an amendment properly so called and might be ruled out of order.

Mr. B. Hanumanta Rau also expressed the same opinion.

The Vice-Chancellor decided to allow Mr. Chakravarti's motion.

The Rev. Mr. Fuller asked why Oriental learning should be limited to Sanskrit, and why Persian should not be included.

Mr. C. R. Reddy opposed the motion. He thought the so called Oriental Faculty was not comprehensive and that the Committee which met to consider the question was not quite representative in character, *e.g.*, did not contain a Mahomedan Member. The amount of English which the students of the proposed Faculty were required to learn was insufficient. Moreover this being a special Faculty, a Special Entrance Examination would be necessary. All that the Oriental Faculty proposed to do could be done just as well in the existing system. Finally, he suggested the appointment of a Committee to go into the whole question.

Mr. D. Venkataramaiya opposed the motion on the following grounds:—(1) The probable paucity of students; (2) The general impression among the Pandits that a knowledge of English vitiates the study of Sanskrit; (3) Lack of prospects for B.O.L. and M.O.L. students; (4) The new scheme of Sanskrit studies recently sanctioned had not been tried yet; and (5) Other essential activities had not received attention, *e.g.*, the training of teachers.

Mr. C. S. Balasundaram Iyer opposed the proposition.

Dr. Mylvaganam thought there was no demand for Oriental learning.

Mr. S. Hiriyannaiya also opposed the motion. He said that, speaking from the abstract point of view, Oriental learning should appeal to all, and in the Mysore State, Oriental

Studies should be well organised. But they were barely 15 months old and several new faculties were coming into existence. The University had not given an adequate place to the vernaculars. He therefore thought that the proposed scheme was at this stage premature.

Dr. Radhakumud Mookerji supported the motion. He said that the Hindu University with its slender resources had started two faculties of oriental learning. The Mysore University was an Indian University and it must affiliate itself to the international comity of letters. Every Indian University must be Indian first. It must express Indian aspects and give expression to Indian culture.

Messrs. Srinivasacharya and Mir Humza Hussein opposed the motion.

Mr. Karpur Srinivasrav strongly supported the proposition. He said that as regards the development of vernaculars, separate action should be taken in an altogether different direction. The faculty might be limited to Sanskrit in the first instance, the majority in the State being Hindus. Later on, Arabic and Persian might be added. The cost involved was inconsiderable, but the culturallvalue derived was important.

After some further discussion, Mr. N. S. Subba Rao proposed that the question be put to the vote under Rule 27, further discussion being stopped. The Rev. Mr. Fuller seconded.

Twenty-eight votes were recorded in favour of closing the discussion and 5 against.

Accordingly the mortion was put to the vote.

Ten votes were recorded for and 22 against.—*Lost.*

2. That the University Examinations be held at Bangalore and Mysore from the 20th March to end of 1st week in April.

Moved by Mr. Thos. Denham and seconded by Mr. N. S. Subba Rao.—*Passed* unanimously.

3. Appointment of Members of the Board of Audit under Ordinance 25.

Mr. N. S. Subba Rao proposed that the existing members, *viz.*, Messrs. C. Srikantesvara Aiyar, M. T. Naraniengar and B. M. Srikantia do continue for another year. Mr. M. C. Rangiengar seconded.—*Passed* unanimously.

4. Proposition by Mr. C. R. Reddy:—

"That it be a recommendation to the Council to take the necessary steps to make physical education compulsory for students in the Mysore University."

Mr. C. R. Reddy moved his proposition and Mr. K. Chandy seconded it.

Mr. M. Venkatakrishnaiya opposed the motion. He observed that there were cases where the constitution of students was such that indulgence in violent physical exercise would be dangerous. Physical culture should not be made compulsory.

Mr. P. Raghavendra Rao also opposed the motion. The Rev. A. R. Fuller strongly opposed the proposition and said that to his recollection this subject had come before the Senate on three occasions. It was most undesirable that questions on which the Senate had given a decided opinion should be persistently re-introduced. He was of opinion that the University should provide every facility for physical education, but that there should be no compulsion. This would be distinctly derogatory to the dignity of the University and the dignity of the students.

The proposition was put to the vote. Four voted for and 27 against—*Lost.*

5. Announcement of the result of the election of the Dean of the Faculty of Arts. (Consequent on Mr. J. G. Tait's resignation.)

The Vice-Chancellor announced that Mr. Thos. Denham had been elected Dean of the Faculty of Arts.

6. Amendments to Ordinances:—

(*a*) In Ordinance 18, after "X. Teaching," add the following:—

xi. Engineering.

xii. Commerce.

Moved by Mr. K. R. Seshachar and seconded by Mr. S. V. Setty.—*Passed* unanimously.

(*b*) To Ordinance 42—56, add the following:—

"A student shall be considered to have studied for a year at the Collegiate High School if he shall have attended not less than three-fourths of the number of working days during the year and if his conduct and progress have been satisfactory.

The Council shall have power to exempt any student from such attendance on the recommendation of the Heads of Institutions."

Moved by Mr. N. S Subba Rao and seconded by Mr. B. M. Srikantia.—*Passed* unanimously.

(c) In Ordinance 44—58,

(i) Insert a comma after 1915-16 and omit the word "or."

(ii) After "1916-17," insert "1917-18 or 1918-19."

(iii) At the end of the sentence, add the words "This privilege shall be extended to Mysore students of other Universities."

N. B.—The Ordinance as amended will read as follows:—

"44—58. As an exception, those who pass the Intermediate Examination of the Madras University from any College in 1915-16, 1916-17, 1917-18 or 1918-19, shall be admitted as students of the second year class of this University. This privilege shall be extended to Mysore students of other Universities.

Moved by Mr. N. S. Subba Rao and seconded by Mr. B. M. Srikantia.

Twenty-one voted for and none against. *Passed.*

(d) Add the following to the second para of Ordinance 44—58:—

"The privilege will extend to similar students of other colleges, if they are natives of Mysore."

Moved by Mr. N. S. Subba Rao and seconded by Mr. B. M. Srikantia.

The Rev. A. R. Fuller suggested the omission of the words "if they are natives of Mysore."

The Vice-Chancellor explained that the position of natives of Mysore who had been obliged to go outside for want of room in our colleges or other reasons was different from that of outsiders. The amendment was not pressed.

The proposition was put to vote. *Passed* unanimously.

(e) For Ordinance 47—61, substitute the following:—

A student shall be considered to have studied for a year at the University, if he shall have attended not less than three-fourths of the number of working days during the said year, and his conduct and progress have been satisfactory.

N. B.—The Council shall have power to grant exemptions in respect of term certificates on the recommendation of Heads of Institutions.

Moved by Mr. N. S. Subba Rao and seconded by Mr. B. M. Srikantia.

Twenty-two voted for and none against.—*Passed.*

(f) Ordinance 51—65:—

(1) In II. Second Language, insert a comma in place of 'or' after Hindustani and insert 'or Persian' after 'French.'

Moved by Mr. E. P. Metcalfe and seconded by Mr. M. C. Rangiengar.—*Passed* unanimously.

(2) In III (b), add the following proviso at the end:—

Provided that the Council may, on the recommendation of the Principal, allow any two subjects selected out of both the groups to be taken together in any case.

Moved by Mr. E. P. Metcalfe and seconded by Mr. P. Raghavendra Rao.—*Passed* unanimously.

(g) In Ordinance 55—69, after "X. Teaching" add the following:—

xi. Engineering.

xii. Commerce.

Moved by Mr. Thos. Denham and seconded by Mr. N. S. Subba Rao.—*Passed* unanimously.

(h) Amend Ordinance 59—73 as follows:—

"No candidate shall be declared to have passed the Entrance Examination unless he obtains 40 per cent of the total marks and 35 per cent of the marks allotted to each of the following subjects:—

(1) English, Second Language, Physics, Chemistry, Mathematics, or Natural Science,

Or

(2) English, Second Language, History, Logic, Economics, or Sanskrit or Persian.

Mr. Mir Humza Hussein moved the proposition and Mr. Thos. Denham seconded it.

Mr. M. T. Naraniengar moved the following amendment:—

(a) That the following be substituted for VI (h) of the Agenda:—

"No candidate shall be declared to have passed the Entrance Examination unless he obtains 35 per cent of the marks allotted to each of the following:—

(1) English,
(2) Second Language,
(3) Optional Group,

provided that candidates failing to get 25 per cent in any one division of the Optional Group shall be considered to have failed in the examination."

Mr. V. S. Sambasiva Iyer seconded.

Mr. M. C. Rangiengar opposed the amendment on the ground that it would lower the standard.

Mr. C. S. Balasundaram Iyer considered the proposition laid down a harder text and opposed both the amendment and the proposition.

Mr. C. R. Reddy proposed the following amendment to Ordinance 73:—

For the words "in each of the other subject groups" substitute the words "in each of the divisions which comprise the optional group"

The sense of the meeting was taken to allow this amendment.

Twenty-three voted for and 9 against.

Mr. Mir Humza Hussein proposed that the Senate should go into committee. Mr. B. Hanumanta Rau seconded.

Ten votes were recorded for and 8 against.

The Senate accordingly went into committee at this stage.

Mr. C. S. Balasundaram Iyer suggested that the whole question might be referred back to the University Council.

Mr. C. R. Reddy strongly opposed the reduction of the minimum in English.

Mr. B. Hanumanta Rau favoured the original Ordinance.

Mr. Mir Humza Hussein proposed 35 per cent for English, Mr. J. S. Chakravarti strongly supported Mr. Mir Humza Hussein's proposal and said that there was no logic in considering that 35 per cent was enough for the 2nd language and optional subjects and not good enough for English. Mr. M. T. Naranaiengar agreed with Mr. Chakravarti.

Mr. McAlpine and Rev. Fuller were opposed to the lowering of the minimum for English.

Dr. Mookerji said that there should be no distinction as regards relative merits of the subjects and proposed 35 per cent for all subjects.

Messrs. K. Chandy, B. Venkatanaranappa and D. Venkataramaiya spoke strongly against the reduction of the minimum for English.

Votes were taken with the following results:—

(1) For the proposition that 40 per cent for English should not be reduced ... 31 votes.
(2) For 35 per cent ... 7 votes.

Second Language.

Thirty-five per cent unanimously agreed.

Optional Subjects.

Thirty-five per cent in each of the subjects comprising the group.

Mr. B. Venkatanaranappa favoured 25 per cent for each subject and 35 per cent for the whole group.

Mr. Metcalfe suggested 30 per cent in each subject and 35 per cent for the whole group.

Mr. C. R. Reddy accepted Mr. Metcalfe's proposal.

Mr. M. T. Naranaiengar moved his amendment and Mr. B. Venkatanaranappa seconded

Votes were then taken:

(1) For having a separate minimum for each subject ...	23 votes	Passed.
Against ...	13 votes	
(2) For 30 per cent minimum in any one subject comprising the group ...	22 votes	Passed.
Against ...	15 votes	

The committee dissolved at this stage.

Mr. C. R. Reddy reported that the following be the minima for a pass in the Entrance Examination under Ordinance 73:—

English ... ... 40 per cent
2nd Language ... ... 35 per cent
Optional .. .. 35 per cent for the whole group and 30 per cent in any one subject in the group.

"Promotion to the Second Year Class will be made by the Principal of each college on the results of the said examination, due regard being given to the provisions of Ordinance 72."

In moving the proposition Mr. Denham explained that no Intermediate Examination was contemplated in the Mysore University course. If a Public Examination for the first year were made compulsory on all students, then they would have three successive Public Examinations in three years, *viz.*, the S.S.L.C., the Entrance, and the First Year, and the strain would be too great. Quite apart from the question of the status of their University, their students were finding it increasingly difficult to get admission to outside colleges for subjects which at present were not taught by the Mysore University. The only solution was that their University should become self-contained as soon as was possible. Even students with certificates of the Madras University were shut out from the Medical and Teachers' College at Madras. The idea of a three years' continuous course without any intervening public examination was finding cordial support all over India.

Mr. B. M. Srikantia seconded it.

Mr. C. R. Reddy strongly opposed the proposition. He said that when the University scheme was drawn up, the First Year Examination was instituted under the belief that it

would be recognised by the sister Universities as equivalent to the Intermediate Examination. This would not involve any strain on the students as the final examination did not cover the course studied in the First Year.

Mr. C. S. Balasundaram Iyer opposed the motion.

Mr. Mir Humza Hussein supported the motion.

At this stage Mr. P. Raghavendra Rao proposed that the House do go into Committee. Mr. C. R. Reddy supported.

Fourteen voted for and 17 against the proposal.—*Lost.*

Dr. R. K. Mookerji preferred to have the First Year Examination a Public Examination. He said that the Mysore University could not isolate itself from other Universities, and that therefore there should be a sound test at the end of the 1st year as a token of the efficiency of students.

Mr. Wadia expressed himself in favour of a public examination at the end of the first year.

The Rev. Mr. Fuller proposed the formation of a committee consisting of the following gentlemen to go into the question—

Mr. K. Chandy.
Mr. C. S. Balasundaram Iyer.
Mr. N. S. Subba Rao.
Mr. P. Raghavendra Rao.
Mr. C. R. Reddy.
Mr. E. P. Metcalfe.
Mr. E. G. McAlpine.

Mr. C. R. Reddy seconded.

Mr. Mir Humza Hussein opposed the proposition. On the suggestion of Mr. Thos. Denham the following gentlemen were added to the committee:—

Mr. Thos. Denham.
Mr. B. Hanumanta Rau.
Mr. M. C. Rangiengar.
Mr. J. S. Chakravarti.
Mr. Mir Humza Hussein.

Votes were then taken on Mr. Fuller's proposition.

Thirteen voted for and 22 against.—*Lost.*

Mr. K. Chandy proposed that the original proposition be put up to the vote. Mr. M. C. Rangiengar seconded.

Nineteen voted for and 18 against the proposition.—*Passed*

The original proposition on the agenda was accordingly put to the vote.

Seventeen votes were recorded for and 19 against.—*Lost.*

(*l*) In ordinance 63—77, omit the words "and in the First Year Certificate Examination."

(*m*) (i) Ordinance 65—79, omit the First Year Examination Scheme.

These two propositions on the agenda were allowed to drop.

(ii) Ordinance 65—79, Under "Final Examination for the B.A. Degree." Three Optional Subject. B. (*c*) and (*d*) Philosophy Groups I and II, substitute the following for the original:—

(*c*) PHILOSOPHY, GROUP I.

1. Theory of Knowledge	...	1 paper of 3 hours.
2. History of Modern Philosophy	...	1 paper of 3 hours.

11. Dr. H. B. Mylvaganam's proposition:—

"In view of the hardships experienced by Mysoreans to enter the Me Madras and Bombay since our University was created and with the view University education the Senate strongly urges Government to start a M Bangalore at an early date."

Dr. Mylvaganam moved the proposition and said that since the Senate voted in favour of a Medical Faculty, the case for the latter was stronger Madras Medical College had excluded the students of Mysore in common w districts from that College, and Mysore students were finding it impos medical course anywhere in India. He wished to know exactly how they the recommendation made to Government by the last Senate.

The meeting was then adjourned to 3 P.M. next day.

Dr. Mylvaganam further explained the cost involved and the materials already available in connection with the establishment of a Medical Faculty or College.

Mr. Karpur Srinivasrav in supporting the proposition wished to know why in view of the circumstances explained in detail by Dr. Mylvaganam the Medical Faculty should not be started.

The Vice-Chancellor explained that the matter was pending orders of Government and that no new Faculty could be started in the University unless it was accepted by Government.

Mr. C. R. Reddy thought that if all the circumstances detailed by Dr. Mylvaganam were placed before the Government a more favourable view might be taken of the matter.

Mr. V. S. Sambasiva Iyer wished that the matter should be pressed upon the notice of Government.

Mr. P. Raghavendra Rao also expressed the same opinion. Mr. B. M. Srikantia said that if a Medical College was opened it would relieve congestion in some of the other colleges, particularly the Engineering College.

The Vice-Chancellor stated that, in the opinion of many competent persons, the scheme passed by the Senate had not made sufficient provision for necessary expenditure and that a Medical College would be a much more expensive undertaken than indicated therein.

Mr. M. Basava Iya explained the pressing circumstances under which the Engineering College was started and also the immediate necessity for starting the Medical College and urged the Senate to accept the proposition.

Dr. Mylvaganam said that whenever the question of starting a Medical Faculty came in they were told that there was no money and that nevertheless Government had enough money for economic developments and for starting Faculties in mining and metallurgy, etc. He explained how it was easier to start the Medical Faculty than any other Faculty, and how the scheme had been prepared so as to deserve the recognition of the Medical Council of England.

The proposition was then put to the vote.

Twenty-five voted for and none against.—*Passed.*

Resolved that as the rule relating to exemptions to agriculturists has been the cause of unnecessary difficulties and annoyance owing to the vague and elastic nature of the term agriculturist and as it is a matter of common experience that discretion in this respect is being often abused by the shanbhogs who have to take the initiative in this direction it is highly desirable that exemptions on this score be done away with and that taxes be levied on all houses and the levy be solely on the principle of valuation without any distinction of the *nature* of houses or as to the occupation of the persons owning the same. The scale of house-tax may be fixed as below :—

(5) Vacant cites may be taxed as hereunder :—

Below 2 guntas in extent ...	0	8	0
Five guntas and under ...	1	0	0
Five to 10 guntas ...	2	0	0

N.B.—Kanas (thrashing floor) do not come under the head, the ground-rent going to Government.

I. The taxes may be revised as above subject to the proviso that the income from this source in areas under the control of the Village Panchayats be assigned to these bodies and that the income from villages other than Panchayats be generally spent for improving roads and sanitation of the respective villages.

II. Read Government Order No. 2582-99—Ml. 184-16-4, dated 10th November 1917, calling for the views of the District Board on the scheme of improving the pay and prospects of Sanitary Inspectors.

PROCEEDINGS OF THE CENTRAL SANITARY BOARD IN MYSORE.

READ—

Letter No. R. 2396—L. R. 511-16-6, dated the 1st September 1917, from the Offg. Secretary to Government, Revenue Department, forwarding for the opinion of the Board a scheme for opening out a new extension in the Kolar town at an estimated cost of Rs. 1,80,000:

Resolution No. 14, *dated* 23*rd January* 1918.

Resolved that although the site proposed, which is a mile and a half from the town is well suited for the purposes of an extension from a sanitary point of view, the needs of the Kolar town would best be served by opening out a smaller extension, but in close proximity to the town and the Railway Station, and by simultaneously improving the old town.

2. *Resolved* also that in the case of extensions to be hereafter formed, the Board recommend, for the acceptance of Government, the principle of the active assistance by Government in the matter of abolition of "slums", by actually providing an adequate number of sanitary houses in the extension and by making them available for occupation by the poor at reasonable rates of rent, the houses so built remaining the permanent property of Government or of the local municipality.

3. The Board further consider that, in regard to the proposed extension for the Kolar town, at least as much money should be set apart for building houses for the poor as that recommended for providing quarters for Government Officers.

President, Central Sanitary Board.

APPENDIX A.

A scheme for the training of local dais in the elements of midwifery.

With a view to give some rudimentary training to the women who are at present attending to labour cases in the malnad, it is proposed to organize a course of elementary lectures in Kannada in the District Head-quarter town of Shimoga.

The expenditure will for the present be confined to women drawn from the Shimoga taluk including the town of Shimoga and any students who may be willing to attend the course of lectures from the other taluks in the district will also be admitted.

There is already a Female Dispensary in Shimoga under the charge of a qualified Indian Lady Doctor. There is also a lying-in-ward for urgent labour cases and a maternity has

also been recently sanctioned by Government for this town. Conditions are thus favourable for making a beginning straightway in the training of local dais.

It may be urged that at present there are not ample facilities for the systematic and satisfactory training of midwives and that half training is worse than no training. But this objection loses all its force when it is taken into consideration that even the very elements of cleanliness and non-interference are unknown to the kind of women who are now summoned to attend upon labour cases and that many a mother's and child's life can be saved by at least cautioning the women against the evil effects of dirty handling of maternity cases and unnecessary frequent interference.

It is therefore urged that a course of 48 lectures spreading over a period of 12 months at the rate of a lecture a week be delivered by the Lady Doctor to the local dais of Shimoga town and the adjoining villages, that a scholarship of Rs. 10 a month be held out as an inducement for those dais to attend such lectures, that a maximum number of students for a course be fixed at 5 and that a Lady Doctor be given an honorarium of Rs. 50 a month for the extra duty devolved upon her owing to this work.

The whole scheme will thus cost:—

	Rs.
Scholarships for 5 dais at Rs. 10 a month for 12 months ...	600
Allowance to the Lady Doctor at Rs. 50 a month for 12 months...	600
Miscellaneous including sundry charges such as books, etc., (L. S.)	300
Total ..	1,500

APPENDIX 'B'.

Land-tenure in the malnad of the Kadur District.

In the malnad parts of the Kadur District, the area under coffee cultivation is 74,842 acres and 15 guntas; 37,917 acres and 15 guntas being under European and 36,925 acres under Indian Planters. Most of the lands in the holdings of European Planters are held on the permanent tenure of Rs. 1/8 an acre and that under Indian Planters at the 30 years' tenure at Rs. 1 per acre.

Before the Revenue Survey and Settlement up to 1882, large areas of land were held by landlords who sub-let them to small cultivators on what was known as the 'Shikmi' tenure. The landlord received a 'panch sheer' of clean coffee on every maund of 28 lbs. produced by the grower. At the time there was no land-tax but a "Halat" of four annas a maund was collected on all coffee produce the "Shikmidar" and the landlord paying their respective shares.

On the introduction of the Revenue Survey and an acreage assessment, which was very strenuously opposed by most of Indian planters, large areas of land were registered by the landlords who could not afford to pay the new assessment and many "Shikmidars" applied for and obtained lands which have been cultivated and much improved by them.

The area under paddy cultivation is 100,697 acres assessed at from Rs. 3 to 6 an acre.

Before the revenue survey and settlements the land was held under the "Batayi" system and revenue paid in kind and most of this land was held by three or four influential men in the villages and was cultivated by them with the aid of "Jitalu" agrestic slaves—Holeyars chiefly—who belonged body and soul to the land-lord. They were fed, clothed and married by the land-lord and their debts were carried on from generation to generation. Their condition was by no means an unhappy one as they were all looked after, mothers and little children fed and cared for and the aged getting a dole of food and clothing. With spread of coffee cultivation many of these agrestic slaves, envying the free life, command of the ready money and the lot of coffee estate coolies generally, absconded to coffee estates and emancipated themselves. As there was no means of recovering either the money or services of these absconders, the Courts declining to interfere or take action on antiquated documents and agreements, more and more of these Jitalu left their employers or Wodeyars as they were called and become freemen. For want of this class of labour and their inability to cultivate all their lands and pay the money assessment, many land-lords, dependent mostly on paddy cultivation resigned their inferior lands-keeping only the best for their own cultivation. In course of time a good many of the once Jitalus, returned to their villages and having saved money took up lands resigned by their late land-lords, cultivating it themselves

and working on coffee or doing other work in their spare time. These are now independent, were it not for the debts they contract for marriage and other expenses. They now exchange their landlord for sowcar as over lord and their more or less comforts luxuries and living have increased and marriage expenses have risen to an enormous extent from Rs. 40 to Rs. 150.

The new landlord has to borrow money from a sowcar to enable him to carry on the usual rate of interest is 25 Khandagas or 45 seers of paddy for the loan of Rs. 100 with penalties amounting to double the quantity for default. As may be imagined, the condition and prospects of the cultivator are simply hopeless as he is more a slave than he ever was.

In case where the landlords have retained their lands, they sublet them on the 'Waram' tenure to raiyats—poor wakkalamakkalu, billars, kurubars, weavers, blacksmiths and holeyars. By this tenure, the cultivator becomes a tenant at will and gives half of his produce grain and straw to the landlord in the event of the landlord supplying manure, he gets the whole of the straw. The landlord pays all taxes.

It is not a very good system but appeals to the small cultivator as he has nothing to lose and goes on until he has made enough to get a bit of land of his own.

In most cases under this system the landlord only gets enough grain as will be covered by the tax on the land but rather than relinquish the land he is willing to get anyone to cultivate it. The cultivator has many ways of getting more out of the land than the landlord. Although the cultivator is supposed to do all the work and give the equal share of the produce to the landlord in actual practice the latter gets less, as half the cost of carrying the crop to the threshing floor and the threshing out of the grain is borne by the landlord, by which he loses about 10 per cent of the crop. For seed, sowing, manuring ploughing and transplanting and cutting the paddy the raiyat either does the work himself or pays, but for carrying the crop to the threshing floor, one head-load of grain and straw for a day's work is given as cooly or hire it is always taken from the heaviest bearing field and as the cultivator and as many of his family, who can carry a load, go for the work the landlord pays away a very large percentage of what should really be his own. It is the same with the threshing. The work is carried on at nights and is paid for in grain so much for each man and pair of bullocks employed and again the landlord is the loser.

Another system and quite a good one is to give the land out to a cultivator who pays the tax and gives the landlord a fixed quantity of grain and straw or the landlord pays the tax and takes only the fixed quantity of the produce.

The drawback to this system from the cultivators' point of view is, that in a bad season he has to give his quota of produce whether he gets it or not and in most cases the quantity of grain fixed is very high and barely pays the cultivator and is only prevalent where the land is scare and labour is plentiful.

Another system is to give out the land on 'Moolageni' for one or more years. The cultivator delivering at his own house from 5 or 10 khandagas of paddy (45 seers) to the landlord. This system seems to work satisfactorily but there is no hope of improvement in agriculture, the cultivator being afraid of enhanced moolageni and the landlord being quite satisfied with what he gets. In some cases the cultivator has a permanent right in the land and so long as he gives the quantity of grain or amount of the lease agreed on—the landlord cannot oust him or raise his rent. The cultivator has the power to sell his right in the lands and transfer it to others.

As a general rule, paddy land is too highly assessed in the malnad and barely pays for cultivation. Makki fields assessed at about Rs. 3 to Rs. 4 being absolutely dependent on the rainfall, suffering very much for the want of seasonable rain and consequently more often than not being a dead loss. Thagginagadde give good crops if manured but there is very little land in the malnad that gives a gross profit of more than Rs. 20 to Rs. 40 an acre.

For the last two or three years the price of paddy has doubled in price but as a rule the cultivator does not get the benefit of the enhanced price. The Maplah, Labbe or other sowcar—invariably a foreigner—advances against the crop for taxes or other expenditure and buys the paddy at Re. 1 a khandaga. Invariably at the reaping time paddy is sold at a low price to pay taxes and about August and after the same paddy if held up would fetch just double.

The next most important crop where the landlord and tenant are concerned is areca. In parts of the malnad and Tarikere the system is to give out the land to cultivators who dig, water and put out manure supplied by the landlord, and to watch the garden. The cultivator growing beetel leaves, plantains, limes and any other crop which he takes as his share of the produce. The landlord picks and prepares the areca crop for the market. The system works well and both landlord and tenant appear to be well satisfied with it to their mutual benefits, and there is no howl for the want of labour to cultivate the garden and hardly any are lying uncultivated.

In Koppa and Kalasa the system is different. The Koppa Taluk is practically owned and divided among ten or a dozen large land-lords who pay from Rs. 1,000 to 8,000 in taxes.

There are 4,561 acres of areca and 16,820 under paddy in the Koppa Taluk.

The general plan is to give out the land on what is known as moolageni tenure. The tenant giving 10 to 20 maunds of prepared arecanut per acre and 5 to 10 kandagas of paddy of wet land. The lease runs for a very short term two to five years and the tenant is afraid to improve the land as his mulageni will be increased and he is always at the mercy of the land-lord, who can generally find a new cultivator at a higher rate of mulageni ready to take up the land at the end of the lease. The land-lords seem to be getting the last ounce out of the tenants and many of the latter complain they get a bare living out of the transaction. Roughly speaking one-third of the land in the Koppa Taluk is left uncultivated. This is put down entirely for want of labour but easier and more liberal terms to tenants would very soon find cultivators for most of the land.

When critisizing the Labour Scheme prepared by Mr. S. N. Appanna Iyengar, I wrote as follows:—

"The people who are complaining loudest of the shortness of labour are the large land-holders men who have more land than they can cultivate or sublet at a highly profitable rental. They prefer to stick to and abandon their proprietors rather than resign them for fear of somebody else more capable, taking them up and working them" and my suggestion was received with a howl of protest with more abuse than argument but the sub-committee make the revolutionary proposition that some provision be made for resuming land that is allowed to lie waste for five years continuously. Obviously it is impossible for Government to pass such a law without paying enormous sums in compensation to owners of unproductive fallow lands and on the face of it, it does not seem equitable to deprive a man of lands, he and his forbearers have been paying taxes for many years either for his own benefit or to the detriment of others.

All along the tram line from Tarikere to Narasimharajapura, there are large areas of assessed land that have been taken up by speculators in the hope of making a profit by reselling the land. Between Tarikere and Lakkavalli there was only one block of 11 acres of assessed land that is now not owned, but little has been cultivated.

I am given to understand that already there are many applicants for waste assessed lands and Bechark villages situated along the proposed tram-line from Benkipur to the forests. It will be found that a good deal of this land is taken up by speculators and other varieties of land grabbers.

What I would suggest is, that in future:—

1. All lands sold by Government be subject to a clause compelling the purchasers to bring 25 per cent of the land under cultivation annually in default, the cultivated portion should lapse to Government with an indemnity for failure to cultivate.

2. That in the new land settlement all lands over a certain area in extent uncultivated for a period of five years, a clause be inserted that every year the land is allowed to lie fallow double the assessment be recovered with an annual increase for continued want of cultivation.

3. That land the property of certain agricultural classes should be made inalienable to prevent sowcars and others advancing money on valuable lands and getting possession of them.

I think there is a good deal to be said on behalf of the land-lords. There are many of them who are kind and considerate to their cultivators and are justly popular and there are many tenants and cultivators that are grateful for having such land-lords but at the same time there are many who spend their leisure hours in devising how they can impose upon and cheat them.

Co-operative Societies are very necessary and in the absence of a Bank is the only salvation of the agriculturists.

I would suggest that societies for agriculturists be kept quite distinct from those for traders, Special Inspectors for Agricultural Societies and Special Inspectors for Industries and Commerce being appointed.

The great difficulty in starting and carrying on these Co-operative Societies in the Kadur malnad is in finding local men sufficiently educated to carry out the duties of Secretary and the want of confidence in each other among members and party feeling the members of one side obstructing the others at every opportunity until the Society becomes a family affair serving few of its shareholders.

Foreign Scholarship Rules.

I. With the object of promoting higher scientific study and research and technical education among the people of the State, in order to train in European countries young men who are desirous of following industrial and commercial occupations which will conduce to the development of the country and with a view to educating in European Universities and Colleges young men for recruitment to the service of the State in the Revenue, Educational, Forest, Medical, Engineering, Geological and other departments, the Government of His Highness the Maharaja of Mysore have been pleased to institute the following scholarships.

II. The scholarships will be known as the Mysore Government Foreign Scholarships and will be granted from the following sources:—

1. *Two* known as Damodar Das Scholarships from four-fifths of the annual proceeds of the Damodar Das Charities' Fund;
2. *Four* known as Mysore Government Scholarships from the general revenues of the State;
3. *Five* known as Mysore Government Loan Scholarships from loans granted from the general revenues of the State.

III. Eight of the scholarships will be given for study in the countries of Europe and America. The other three will be given for study in Europe and America or in Japan and other eastern countries; in the latter case two scholarships will be awarded in lieu of every one scholarship tenable in Europe and America.

Of the eight scholarships tenable in Europe and America, *4* will be given for post-graduate scientific study and research and *4* will be given for technical, industrial or commercial training of a practical nature.

The other three scholarships tenable in Europe and America or in lieu thereof, six scholarships tenable in eastern countries will ordinarily be given for practical training in technical, industrial and commercial subjects, but may, in special cases, be given for post-graduate study and research.

IV. The scholarships will ordinarily be tenable for two years, but Government will be prepared to extend the term by one year in the case of half the number of scholarships, where such extension is necessary.

V. Candidates for the scholarships must not ordinarily be over 25 years of age. It will, however, be open to Government to relax the age limit in special cases, such as in the case of candidates who have specially distinguished themselves in their University career and who show very marked aptitude for the higher branches of scientific and technical study, and in the case of candidates who have been engaged in industries or commerce and who desire to pursue industrial or commercial training in foreign countries.

VI. The scholarships will be open to all natives of Mysore by birth or domicile. When well qualified candidates who are natives of Mysore are not available, the scholarships will be open to others who have graduated from a Mysore College. The scholarships for post-graduate scientific study and research shall be awarded only to candidates who have taken with credit a degree in Arts, Medicine or Engineering in an Indian or other recognized University. The subject of advanced study proposed should have an intimate connection with the course of study the candidate has already pursued.

In the case of scholarships for technical, industrial or commercial training, applicants need not necessarily be graduates of a University, but a candidate will be expected to have received sufficient general education to enable him to pursue his studies with advantage. Such candidates should have had practical experience of the industries, etc., which they desire to study, or in the absence of such previous experience should be prepared to undergo such preliminary practical training as Government may prescribe.

VII. Each candidate must forward with his application :—

1. A satisfactory certificate of birth or domicile;
2. A declaration that he has the consent of the head of his family to proceed to Europe or elsewhere for the purpose of the scholarship;
3. Certificates of good character from two persons (not relatives of the candidate) of respectability and good position, in addition to one from the Head of the College where he was educated for the degree in Arts, Medicine or Engineering.
4. A certificate of physical fitness to undergo the course of study, research or training which he will have to follow, signed by the Senior Surgeon of the Government of Mysore, or a Medical Officer not below the rank of a District Surgeon.
5. A statement of the course of study or research which he desires to pursue, with testimonials as to his educational and other qualifications for such course.

VIII. (*a*) Applications for scholarships shall be made to the Inspector-General of Education in Mysore between the 1st June and the 31st July of each year. The selection of candidates will ordinarily be made by Government on the report of a Committee appointed to report on the merits of the candidate.

(*b*) The candidates shall be required by the Committee to give evidence of their fitness for practical work in any manner that the Committee may think desirable and to undergo any test which the Committee shall prescribe under the general or special orders of Government. In special cases the candidate may be required to undergo a period of probation and preliminary training in India. During such period he shall receive such subsistence and tuition allowances as Government may prescribe.

(*c*) Candidates for scholarships in Europe and America shall be expected to acquire a working knowledge of German or French and scholars going to the far East a knowledge of Japanese, during the period of probation, if facilities for such study can be secured.

IX. The scholarships for study in Europe and America will be of the value of £200 per annum and those for study in the East of the value of Rs. 1,500 or £100 per annum.

The scholarship will be paid in advance quarterly or in such other instalments as may be considered necessary by the Inspector-General of Education. The scholarship will be held to cover all college and examination fees, cost of books, instruments and boarding charges.

An advance not exceeding £25 in the case of scholars proceeding to Europe and America and not exceeding £15 in the case of scholars proceeding to the East, will be given for expenses of outfit when the scholar leaves Bangalore; and this will be recovered out of the scholarship in easy instalments spread over the whole term of the scholarship.

Besides the scholarship, each scholar will be given travelling allowance, *i.e.*, 2nd class rail and steamer fares from Bangalore to the capital or other town of the country selected for his training and a similar allowance for his journey back to Bangalore on the completion of his course of study or research.

Where any premium or other payment is required for securing admission to a factory or other place for practical training in industries or crafts, such charges will be paid if considered reasonable and provided that the previous approval of Government has been taken in each case. In the case of Loan Scholarships the amount will be treated as an advance and will be recovered in the same way as the scholarship.

X. The subjects which the scholar shall study will be one or more of the following :—

1. Physical Science.
2. Natural Science.
3. Application of Science to Agriculture, Arts, Industries and Manufactures.
4. Research work in applied Science.
5. Medicine, Public Health and Bacteriology.
6. Engineering—Civil, Mechanical, Electrical.

8. Public Administration, Economics, Statistics, Banking, Commerce, Accountancy Business Administration and Organisation, etc.
9. Arts, Industries, and processes of manufacture including Textile Industries, Tinctorial Chemistry and Dyeing, Leather Industries.

Provided that Government may, in special cases, grant scholarships for the encouragement of higher study in Sciences and Arts other than those specified above.

XI. Each candidate selected, shall, unless otherwise directed by Government, proceed, within such period as may be fixed by them, to the country selected for his training, join the institution selected or approved by Government for the purpose and there continue his study or research with all due diligence.

The Inspector-General of Education will, in consultation with the Comptroller, arrange for the payment to the scholar from time to time of the scholarship and of any other sums that may become payable.

XII. The continuance of the scholarship to the holder will be strictly dependent on good conduct and will be conditional on satisfactory progress being made in his study or research.

The scholars will be subject to the supervision of the Educational Adviser for Indian students in England or other person who may be approved by Government in each case.

XIII. The scholarship will be forfeited if the holder thereof not being disabled by illness or prevented by any other cause which the Government may consider sufficient, fail to complete the course of study or research prescribed or is unfavourably reported on by the Head of the Institution or the supervising authority referred to in Rule XII. In such cases the scholar shall be liable to refund the whole or part of the money paid to him as may be decided by Government.

XIV. A scholar shall, before leaving Bangalore, enter into a bond with the Mysore Government stipulating that he accepts the scholarship on the conditions specified in these rules; that he will prosecute the study or research with all due diligence and that on the completion of such study or research course, he will return to Mysore and will, if called upon to do so, serve the Mysore Government for a period of not less than five years on a reasonable salary to be fixed at the sole discretion of Government, provided that Government may waive such a claim and also that if it shall not offer him employment within six months after his return to Bangalore, it shall be bound to waive it and allow him to get employment elsewhere.

If he fails to fulfil any of these conditions, he shall refund to Government the total amount received by him as scholarship, passage money, etc., with such interest as may be demanded not exceeding five per cent per annum on the amounts paid to him from time to time.

XV. In the case of Loan Scholarships, the scholar shall, in addition to the above stipulations, before leaving Bangalore, enter into a bond with the Government giving satisfactory security for the repayment of the advances payable to him but without interest.

The loan shall become repayable without interest ordinarily in 5 and in any case not more than 10 yearly instalments after the completion of the training for which the loan was made, the further particulars of repayment being fixed by Government in each case according to circumstances.

EXCISE DEPARTMENT.

NOTIFICATION.

NOTICE OF SALE OF EXCISE AND OPIUM PRIVILEGES.

No. 209-17, dated 25th March 1918.

Notice is hereby given that the exclusive privilege of selling liquor, intoxicating drugs and opium in the several shops appointed for the purpose and published in the Schedule during the twelve months beginning 1st July 1918 and ending 30th June 1919, will be put up to public auction by Deputy Commissioners or Revenue Assistant Commissioners or District Officers of the Excise Department or other officers specially authorised by the Deputy Commissioners for the purpose, on the dates and at the Taluk or Sub-Taluk headquarters mentioned in the statement annexed, subject to the conditions hereinafter set forth. If the sales are not completed on the dates fixed, they will be continued on the next following days, close holidays excepted.

Condition of Auction Sale.

II. A deposit must be made by each bidder previous to bidding and will be received *by the selling officer on the day of sale.* A deposit of Rs. 50 will ordinarily be required from any person wishing to bid for any important shop or any large number of shops. This will be reduced to Rs. 20 in the case of bidders for not more than two or three shops of an aggregate monthly value of Rs. 50 or less and to Rs. 5 in the case of bidders for single small shops. In the case of shops whose average monthly rental is very small, the selling officer may fix such other reasonable amount as he may deem fit.

III. The shops will be put up to auction in the order in which they are notified in the Schedule unless the selling officer sees reason to change that order. Upset prices will be fixed at the discretion of the selling officer. The rentals and the consumption of the previous three years will be notified for the information of bidders.

Note 1.—The privilege of vending toddy in any Coffee Estate or kan may be sold to the Planter or kan-holder for any fixed amount not less than Rs. 36 per shop per annum.

Note 2.—Toddy shops in alienated villages whose claims to the Excise revenue from toddy have been recognized or have not yet been settled shall invariably be sold separately, and the amounts connected therewith shall be shown in the accounts under a distinct head.

IV. Every shop should, as a rule, be sold independently. Grouping should be resorted to only under very exceptional circumstances limiting the number of shops so grouped strictly to the necessity of the occasion.

V. No person will be allowed to bid for another unless he holds a power-of-attorney from him.

VI. No shops will be knocked down in the name of two or more persons unless they represent a duly recognised company or firm by means of a power-of-attorney. The selling officer shall refuse to register as a purchaser any one in whose name the bidding has not proceeded.

VII. The officer conducting the sale may, at his discretion, refuse to accept the bid of any person on the ground that it is too low or that he has been convicted by a Criminal Court or has previously been guilty of such a breach of the conditions of a license or of a contract under the Excise Regulation or Opium Act, as to render him undesirable as a holder of a license or on the ground that he is insolvent or in arrears to Government or to prevent arrangements to the detriment of Government interests or for any other valid reason. He may also refuse any bid which he may consider to be purely speculative after recording his reasons for doing so. Village officers will not be allowed to bid for or to have any pecuniary interest in shops for the sale of intoxicants within the limits of their villages.

VIII. The shops will be knocked down to the highest bidder, but the sale will be subject to formal confirmation by the Deputy Commissioner, who shall be at liberty to accept or reject any bid at his discretion. Such formal confirmation will be tantamount to an acceptance of the bid unless revised by the Government on the advice of the Excise Commissioner for special reasons and will be necessary whether the sale be held by the Deputy Commissioner himself or by any officer appointed by him.

IX. In cases of dispute at the time of auction, the selling officer's decision shall be final; and if for any reason the highest bid is rejected, the next highest shall be taken or the shop resold at his discretion.

X. Shops remaining unsold at the first auction shall ordinarily be disposed of by re-auction or by tender or otherwise at the discretion of the Deputy Commissioner later on.

XI. At the close of each day's sale, the deposits made by the unsuccessful bidders will be returned to them. As the auction proceeds, each person whose bid is accepted shall at once, if so required by the selling officer, or otherwise at the close of the day's sale, make a further deposit* which together with the initial deposit made under condition II, will make up one month's khist for each shop. Should he fail to do so, the deposit made by him under condition II will be forfeited and the shops will be put up again immediately to auction by the selling officer on the above conditions or otherwise disposed of by the Deputy Commissioner, and the defaulter will be debarred from bidding again for the same or for any other shop. In the case of foreigners the initial deposit together with the further deposit may be raised equal to two months' khist. Successful bidders shall be granted proper receipts for the amount deposited by them.

XII. Persons to whom shops have been knocked down and who have made deposits as provided in conditions II and XI shall leave their address with the selling officer, in order that the confirmation of the sale may be communicated to that address by a notice, and they shall also deposit* such further sum as with the former deposits will make up two months' rent. Such deposit should be paid into Taluk Treasury within seven days from the date of communication of the notice of the Deputy Commissioner's acceptance of the bid by its presentation to themselves or to any adult male member of their family at the place of the said address or by its despatch duly registered by post. They shall then *without unnecessary delay* execute the necessary engagements and take out licenses on the conditions hereinafter set forth. In the case of the purchaser's death after signing the agreement, it will be binding on his heirs and assigns.

XIII. If, on enquiry subsequent to sale, the purchaser shall found to be of doubtful solvency or a foreigner having no sufficient property in the Mysore State, he may be required either to deposit twice the sum prescribed in condition XII *supra* or to get a surety, or sureties, residents of and possessing sufficient property in the Mysore State, to execute a security bond for the due payment of all moneys that may become due by him under the terms of the contract. The bond shall be stamped (Article 32 of Schedule I of the Mysore Stamp Regulation, II of 1900) and also registered at the expense of the purchaser if the amount secured exceeds Rs. 1,000.

XIV. As soon as the sales are over, the sale conducting officer shall forward a list of successful bidders with his remarks to the Deputy Commissioner for confirmation of the sales.

XV. On the failure of any person to make deposit under condition XII or to comply with the requisition under condition XIII *supra* or to execute engagements and take out licenses as aforesaid, the deposits already made shall be forfeited and the shop promptly be resold or otherwise disposed of at the discretion of the Deputy Commissioner.

XVI. Re-sales effected under condition XV will be at the risk of the defaulting bidder, who will forfeit all gain, and, in the event of loss, will be required to make good the deficiency between the total amount payable for the whole period under the terms of the original sale and the total amount payable by the successful bidder at the re-sale. In the latter case, the forfeited deposits will be deducted from the loss arising from the re-sale, and the remainder, if any, will be recoverable from the defaulter in the same manner as if it were an arrear of land revenue. Should, however, the forfeited deposits be greater than the loss by re-sale, the whole of such deposits will be credited to Government. The defaulting bidder will be similarly liable if the privilege is disposed of otherwise than by re-sale and such disposal results in loss to Government as compared with the original sale.

XVII. The purchaser of the privilege is liable to the penalties prescribed for breaches of the conditions set forth below though a formal license may not have been issued to him.

* Deposits may be in cash or other approved security.

XVIII. The deposit referred to in condition XII or condition XIII, as the case may be, will be taken as security for the due performance of the conditions of the license. It will be returned to the licensee after the expiry of the period of his lease and after adjustment from it of any dues payable by him to Government.

XIX. The licenses issued under the above clauses will contain the following general conditions common to all Excise and Opium licenses and the special conditions prescribed below for each particular kind :—

General Conditions applicable to all Excise and Opium Licenses.

1. The manufacturers of arrack and other country spirits as well as the licensees of Arrack Bonded Depots are prohibited from holding any interest in the retail vend of arrack or in the vend of other intoxicants and from employing any person who has such interest.

2. The limits within which sales and possession under any Excise or Opium licenses may be carried on will be specified by the Deputy Commissioner at the time of the grant of the license. The sale or possession (except subject to the rules applicable to unlicensed persons) of liquor, intoxicating drugs or opium outside those limits is prohibited except with the special permission of the Deputy Commissioner.

3. Sales must be conducted in a suitable building of which the whole or part must be entirely set aside for use as a depot or shop. If there are means of communications between the depot or shop and an adjoining dwelling house, they must be kept locked at night. In the case of arrack shops in Municipalities or towns having a population of 2,000 and over, the shop premises shall have no doors except into the main street; unless barred and protected by wire netting, no windows or other openings shall be allowed to the rear or at the ends of the building; there shall be no possible means of ingress or egress in any other direction; the bar at which the sale is held shall be opposite the entrance door and so situated that all persons inside can be seen by any one passing to and from in the street, and shall not be more than four feet raised from the ground and no second room shall be used for sale, or be kept open for customers. The interior of the shop shall be sufficiently lighted by day and night and the premises shall be kept clean and in a sanitary condition. The shop shall not be used as a place of residence but vendors or care-takers may sleep in it at night, if necessary, to safeguard the stock.

4. Except when two or more Foreign Liquor licenses or the Ganja and Opium licenses in the same locality are held by one person, or in the case of licenses held by Chemists and Druggists, and Medical Practitioners, sales under different licenses must be conducted in different premises.

The possession upon any licensed premises of any liquor, intoxicating drug or opium except that to which the license relates, or of any essence or substance used or capable of being used for colouring or flavouring liquor except in accordance with the terms of a compounding license is prohibited. But intoxicating preparations made from opium other than morphia or preparations for smoking may be prepared and sold in shops licensed for the sale of opium.

5. A signboard must be affixed to the front of each shop showing the nature and number of the license under which sales are conducted there and the name of the licensee. These particulars must be legibly painted in the local vernacular. The license must be hung up in a conspicuous place within.

6. All liquor, intoxicating drugs and opium sold or kept for sale shall be of good quality undiluted and unadulterated. Nor shall a blend of different kinds of liquors be made and sold under the designation of one of them. Nothing shall be added to them either to increase their intoxicating power or for any other purpose except the manufacture of intoxicating drugs in accordance with the terms of a license. All officers authorized to inspect depots and shops (*vide* condition 25 *infra*) are authorized to detain any liquor, intoxicating drug or opium found unfit for consumption or use, or which they may believe to have been tampered with, and the Excise Commissioner, Deputy Commissioners and District Excise Officers are empowered to confiscate and destroy such as are found unfit for consumption or use.

7. The manufacture, sale or transport of liquor, intoxicating drugs or opium and the tapping or drawing of toddy in the case of palm trees by persons below the age of sixteen or by persons suffering from leprosy or any contagious disease and the employment of such persons in groves, shops or depots for the sale of the same are prohibited. The District Excise Officer or the Range Inspector may call for the names of all persons employed or proposed to be employed in depots, shops or groves and the District Excise Officer may forbid the sale of intoxicants or their manufacture or transport by any person whom he may disapprove.

8. The opening hour of sale will be 9-30 A.M., in the case of Arrack, Foreign Liquor and Beer shops, and sunrise in the case of other shops and depots, and the closing hour will be 8 P.M., in the case of all depots and shops. Special discretion is given to Deputy Commissioners to reduce these hours further in industrial areas by closing the shops on week days from 11-30 A.M., to 1-30 P.M., and on the afternoon of pay days and by directing the shops to keep open on Sundays only between 11-30 A.M., and 4 P.M. In the cites of Bangalore and Mysore and in the Kolar Gold Fields, sales after 8 P.M., will be allowed in special cases under separate licenses and on payment of such fees as may be prescribed by the Excise Commissioner. Power is reserved to Deputy Commissioners on the report of Police or for other sufficient recorded reasons, to order the closure of any particular shop either in towns or in the country at 7 P.M., if they consider such a course to be advisable in the interests of the public.

9. No drunkenness, disorder or gaming shall be permitted in depots or shops. Entertainments of any kind in depots or shops are also strictly forbidden.

10. No robbers or thieves or disorderly or riotous persons or prostitutes or soldiers or others known or believed to be deserters shall be harboured in depots and shops. Intimation of their resort thereto shall be given to the nearest Magistrate or Police Officer.

11. No person shall be harboured in any depot or shop during the night.

12. Depots and shops situated on or adjacent to the line of march must be closed, if the Deputy Commissioner so orders, while a Regiment or Detachment of European or Native soldiers is passing or is encamped in the vicinity. Deputy Commissioners or Revenue Assistant Commissioners shall have power also to close any shops temporarily in times of religious excitement or disturbance. Every depot and shop-keeper shall on his own motion close his depot or shop when there is riot or disturbance in the neighbourhood.

13. The Deputy Commissioners may order the transfer of depots and shops from one locality to another within the limits of the same town or village or the closure of the same. But no new shops shall be opened except with the previous sanction of the Excise Commissioner.

14. 1. No occasional licenses will be issued for sale of liquor during Jatras and except in Municipal towns, existing shops, if any, will be removed to a distance of one mile from the place of Jatra during duration of the Jatra.

2. Ordinary shops will not be located in unduly prominent places so as to be offensive or to offer unnecessary allurements.

15. No liquor, intoxicating drug or opium shall be sold or given—

(a) except at shops specially approved by the General Officer Commanding the Division (or independent Brigade) or the Officer Commanding the Cantonment or Camp, and then only in respect to such liquors as shall be approved by the same authority in consultation with the local Excise authorities and specified in the license—

(1) to sailors of the Royal Navy, soldiers and the members of their families, or,

(2) to any other person living in barracks;

(b) (1) to persons whom a vendor knows, or has reason to believe, to be camp followers, *i.e.*, all classes of followers (other than private servants) whether on or off duty, who have a right to be in cantonments;

(c) in any circumstances, to any—

(1) European vagrant under escort of the Police;

(2) child under 16 years of age;

(3) insane person; or

(4) person known or believed to be intoxicated.

16. No privilege of supply or vend shall be sold, transferred or sub-rented without the Deputy Commissioner's previous permission, which will only be given if the applicant is prepared to forfeit his deposit already made except in cases where the Deputy Commissioner sees reason not to enforce the penalty. Nor, if the Deputy Commissioner so orders, shall any agent be appointed for the management of any such privilege without his previous approval.

17. No holder of any Excise or Opium License will be allowed, without the written permission of the Excise Commissioner to possess or continue to possess any interest direct or indirect in any Excise or Opium License outside the Territories of Mysore, or in the Civil and Military Station of Bangalore.

18. Depots and shops must be kept open daily unless their temporary or permanent closure is authorised under condition 12 or 13 *supra* and such supply of liquor, intoxicating drugs or opium as the Deputy Commissioner may consider sufficient to meet local requirements must be maintained therein. The details of such supply will be published in the *Mysore Gazette*. Shops not opened by 1st July or on such dates to be fixed by the

Deputy Commissioner in the case of bagani toddy shops shall be liable to be re-sold at the risk of the licensees.

19. No liquor, intoxicating drug or opium shall be sold in shops except for cash. The licensees shall be bound to give intimation of the offer of anything other than cash to the nearest Magistrate or Police Officer. This condition is not, however, meant to restrict credit sales in the ordinary course of business by shop-keepers or firms of standing and respectability dealing in Foreign and Special Liquors for consumption off the premises.

20. No liquor, intoxicating drug or opium shall be sold below the minimum prices prescribed for the sale of the same as noted in the foot note.*

21. No liquor, intoxicating drug or opium in excess of the quantity prescribed for possession without a license shall be permitted to be removed by any person at any one time from any licensed premises without a valid permit.†

The account and permit books may be obtained from the local Excise Officers on production of receipts for the payment of the cost price into a Government Treasury. Permits for liquor, intoxicating drugs or opium received must be carefully filed. The accounts and permits shall immediately after the expiry of the lease, be handed over to the Range Inspectors who shall preserve them for a further period of one year before they are destroyed.

23. Such returns and information as may be required from time to time by any officer not below the rank of an Excise Assistant Inspector shall be furnished by holders of licenses without delay.

24. Only such weights and measures as may from time to time be prescribed by the Excise Commissioner shall be possessed or used on any licensed premises. The possession or use of weights or measures that are incorrect on any licensed premises will render the licensee liable to punishment. In the case of toddy shops, earthen or other measures may be used provided they are of the same capacity as those of the prescribed measures which must however be maintained in all licensed premises. There is no objection however to use a quarter seer toddy measure in case of necessity.

25. Any officer of the Excise Department of rank not lower than Sub-Inspector is authorised to inspect licensed shops and depots. These officers are empowered to enter and examine the premises, to test weights and measures in use and the liquor, intoxicating drugs and opium in the possession of licensees, and to call for and check the accounts kept in the shop or depot. Police officers will also make an inspection when it comes within the scope of their duty.

26. An inspection note-book with the pages numbered consecutively, for inspecting officers to enter their remarks in shall be maintained, and always kept in the shop and be handed over to the Excise Inspector in charge of the range or any officer authorised by him to receive it on a receipt being given therefor, when it is wanted by such officers for the purposes of an enquiry under the Excise Regulation or the rules framed thereunder.

27. The amount for which the privilege has been purchased shall be payable in twelve equal monthly instalments into the local Government Treasury together with any Railway cess, the levy of which has been already ordered (as noted in the foot note)* or may be ordered in the course of the year on or before the 10th of each month beginning with July. 30. Power is further reserved to Revenue Officers to suspend licenses in case of failure of payment of khists or (in the case of toddy) tree-tax also on the due dates. In the case of arrack, toddy and drug shops, this power will be exercised by Amildars and in other cases by the Deputy Commissioners.

31. In the event of the aforesaid arrack, toddy or drug licensee failing to pay his khist, the Amildar after suspending the license shall with the previous sanction of the Deputy Commissioner re-sell after notifying the date of resale by affixing a notice on the Taluk Office Notice Board, the privilege with effect from the date of issue of license to the new purchaser. The date of sale shall be after the 20th of the month for which the khist is due, and before the close of the month. The Deputy Commissioner may also in his discretion dispose of the privilege in any other manner. Service of notice on the defaulting licensee is dispensed with under this rule. All losses on account of suspension and re-sale or other disposal of the privilege shall be borne by the defaulting licensee, but he shall have no right to gain, if any, which accrues. The whole of the deposit, if any, made at the commencement of the lease will be liable to forfeiture at the discretion of the Deputy Commissioner who may either direct such forfeiture or appropriate the same towards the arrears due by the defaulter as well as towards the deficits if any arising from the re-sale or other disposal of the privilege. The officer who has power to suspend the license may, however, at his discretion allow sales to continue pending re-sale or other disposal of the privilege.

32. Interest on all moneys due shall be payable at the rate of one pie per rupee or fraction of a rupee per month or fraction of a month.

33. Infraction of any of the conditions of the license either by a licensee or by any person in his employment will entail on the licensee—

either (*a*) fine up to Rs. 50;

or (*b*) forfeiture of deposits, if any, and cancellation of license and re-sale or other disposal of the privilege at the risk of the licensee.

The licensee or his agent or both may also be prosecuted for the specific offence committed. The rent for the whole lease shall become due at once, when a lease is cancelled under this condition.

NOTE.—For continuing breaches of a license, continuing fines may be imposed.

34. Any license may be forfeited and the privilege re-sold or otherwise disposed of at the risk of the licensee if the licensee be convicted before a Magistrate of any offence against the *Excise Regulation or Opium Act* or of any offence under the Indian Penal Code, which in the Deputy Commissioner's opinion renders him unfit to hold it. *The purchaser of a privilege is liable to the penalties prescribed in this condition if he is convicted of any such offence as above contemplated after the confirmation of the sale of the privilege to him though before issue of a formal license.* Forfeiture of any license under this clause shall involve forfeiture of the balance of all deposits after payment to Government of all sums due under the lease.

35. Licensees are bound to report to the Deputy Commissioner all instances which come to their knowledge of persons employed by them in the manufacture, carriage or sale of liquor, opium and intoxicating drugs, committing breaches of the Excise or Opium Laws or of engagements entered into by them and to comply with the Deputy Commissioner's orders respecting the continued employment of such persons. No persons who have been convicted under the Indian Penal Code shall be employed in the carriage or sale of liquor, opium and intoxicating drugs without the Deputy Commissioner's previous permission.

36. Pecuniary dealings by licensees of any kind whatever with officials of the Excise Department are absolutely prohibited.

37. With the sanction of the Excise Commissioner, any license shall be revocable by the Deputy Commissioner at his discretion on giving the licensee fifteen days' notice of such revocation, in which case a proportionate part of the fee paid will be refunded.

38. All licensees shall be bound by any additional general rules that may be prescribed under the Excise or Opium Laws and if so required by the Deputy Commissioner or any officer authorized by him, to deliver up their licenses for amendment or for the issue of fresh ones.

39. No licensee shall have claim to any compensation or remission on account of any arrangements which may be made in regard to liquors or intoxicating drugs other than those to which his license relates.

40. No licensee of any one kind of liquor shop shall, during the term of such license, have any interest in the exclusive privilege of vending any other kind of liquors within five miles from it, nor shall he permit any person having such interest to hold any share or interest in his exclusive privilege.

41. The licensee shall be bound to take over any liquor or drug which may remain in the shop as stock in hand belonging to the outgoing licensee, whether the privilege is

purchased at a re-sale or at an original sale, at the time when the privilege is made over to the former, paying the latter such compensation for the same as may be fixed by the Deputy Commissioner. Any liquor or drug that at the time of stock-taking is found to be unfit for human consumption will be destroyed and the out-going contractor is not entitled to any compensation for it.

XX. Conditions applicable to Arrack Licenses.

1. The privilege conferred by the license extends only to the sale of arrack of the strength of 30° U.P. In places where separate shops are not licensed for the sale of sugar-cane jaggory arrack, of 30° U.P. the arrack shop-keeper may be permitted to sell jaggory arrack in reputed pint or quart bottles. This privilege is however liable to be withdrawn at any time during the lease and it shall not be open to the licensee to claim any compensation on this account. But in places where both arrack and special liquor shops exist the privilege of selling bottled jaggory arrack will be disposed of by the Deputy Commissioner by getting both the licensees to bid.

2. Arrack of the strength of 30° U.P. shall be purchased only from the Bonded Depots established by Government at the following rate per gallon:—

Duty	Rs. 5 4 0	Rs. 6 1 2 plus Railway Cess, if any.
Price	„ 0 13 2	

(1) The quantities purchased at one time shall not fall below one gallon of arrack. For the transport of liquor from the Bonded Depots, arrack shop-keepers should provide themselves with jars or other suitable receptacles which can be effectively closed and sealed and also arrange to get the consignments properly sealed before delivery from the Bonded Depots.

(3) The licensee shall pay the above duty, price and other charges into a Taluk Treasury or to a special shroff, if any, appointed on this behalf at the cost of Government, and located at the Taluk Cutcherry to receive such duty, price and other charges *daily* including Sundays and holidays or to such other officer as may be appointed by the Deputy Commissioner, and shall obtain a receipt in the prescribed printed form. For this purpose a chellan book prescribed for the year will be granted to each shop-keeper free of cost in the first instance. On production of such receipt, the Bonded Depot-keeper shall issue the quantity of liquor equal to the amount of duty and price shown in the said receipt which will be forwarded to the Deputy Commissioner's office under the endorsement of the Bonded Depot-keeper aforesaid, as to the date and hour when the liquor was issued. The Depot-keeper aforesaid shall issue a permit in the prescribed form for the transport of liquor from the Bonded Depot. He shall also issue sample bottles with the consignments in such manner as may be ordered by the Excise Commissioner.

(4) Persons who purchase group of shops may, with the special permission of the Excise Commissioner who is at liberty to refuse it and under a license by a competent authority, open a depot and remove thereto liquor purchased from the Bonded Depot and issued therefrom the requisite supply to their shops.

(5) No consignments of arrack received at the shop which have been transported through British Territory shall be opened before they have been verified by the officers authorised to do so.

(6) The arrack kept in his shop, offered for sale and sold, shall be unadulterated and undiluted, and it shall be of the same quality and strength as issued from the Bonded Depot subject to such margin as may be allowed by the Excise Commissioner from time to time.

NOTE.—The licensee shall maintain intact the sample bottle issued to him by the Bonded Depot-keeper with each consignment till the bulk of the liquor in the consignment is exhausted.

(7) "Arrack shop-keepers may be required by the Health Department to keep a pail of water in their shops for the purpose of washing tumblers used by consumers. Suitable arrangements shall, in this case, be made so that the vendor does not himself become the cleaner of such tumblers. A pail of water shall be kept at some distance from the counter or bar, and a separate individual told off for the purpose of washing the vessels used for drinking."

(8) The licensee of every shop in the Cities of Bangalore and Mysore shall pay registration fee at the rate of Rupees (180) one-hundred and eighty per annum in advance for the period of the license for his shop and he shall pay a surcharge of (4) four annas per gallon on all arrack sold by him in excess of 55 gallons a month in each such shop.

XXI. Conditions applicable to Toddy Licenses.

(1) The exclusive privilege conferred by the license extends to the sale of Date, Palmyra, Cocoanut, Bagani and Dadasal toddy. But in tracts where both Date and Bagani toddy shops exist, the licensee of the Date toddy shop shall not tap Bagani trees and the licensee of the Bagani toddy shop shall not tap Date trees; but both licensees can tap any of the other palm trees named above.

(2) For the supply of toddy to his shops the licensee shall have the privilege of obtaining, subject to tree-tax rules, toddy-yielding trees in the groves assigned to his shops or groups of shops, and he shall be at liberty to manufacture toddy from the trees in private lands under private arrangements between himself and the owners of such lands. If the Deputy Commissioner is satisfied that the said (hiduvali) trees should not be tapped, he is competent to withdraw the tree-tapping license and the licensee affected thereby shall not claim any damages therefor. In the case of trees on Government unoccupied lands included in the date reserve list and reserved for future use the previous sanction of the Excise Commissioner should be obtained before accepting applications for licensing them. The number of trees shown in the assignment lists is only approximate and is subject to alteration at the time of presenting application for trees. The District Excise Officer may approve all such alterations on the recommendation of the Range Inspectors. He may purchase toddy from any licensed toddy shop-keeper on application to the Inspector, who will grant the required permits on proof of the necessary for the same in the following cases:—

(*a*) Where there is an unusual demand for toddy in a shop in consequence of a festival or for any other valid reason to be recorded by the Range Inspector.

(*b*) Where trees have ceased to yield during the last few days of a lease.

(*c*) Where toddy drawn by one shop-keeper at the end of the lease cannot reach the shop before the first few days of the new lease.

(3) No toddy in excess of the produce of trees licensed for that shop and covered by a transport permit shall be transported to or kept in the shop or offered for sale or sold.

(4) The licensee shall be responsible to Government for all payments of instalments of fees due on account of tree-tapping licenses granted on his application in his own name or in the names of his nominees under the conditions set forth therein and in the rules relating thereto.

(5) If any instalments are not paid within the time, the tapping license shall be liable to be cancelled or suspended under Section 26 of the Excise Regulation. Fresh applications for trees shall not be accepted from licensees until the arrears of tree-tax relating to all their shops are paid up.

(6) In case of default, the Amildar will order the suspension of the tapping license till the arrears are paid up: and if, after receiving notice of such suspension, the defaulter or his agent or employee continues to tap the trees, any or all of them will be punished departmentally or be prosecuted for illicit tapping.

(7) Tree-rent at Re. 0-4-3 per tree shall be paid at the time of application for a tapping license for all Government trees applied for being tapped for the supply of toddy shops whether within or outside the Mysore Territories or in the Civil and Military Station, Bangalore. Railway cess on tree-rent will be levied in addition as stated in the foot notes to General Condition 27 *supra*.

NOTE.—No trees on Government occupied land can be tapped without the consent of the owner. The present arrangements as regards trees in alienated land will hold good, subject of course to the levy by Government of tree-tax.

(8) The tapping of trees is subject to the following conditions:—

(*a*) Date trees shall be tapped only by professional men.

(*b*) No date tree shall be tapped oftener than in alternate years or for more than four months in the year.

(*c*) Trees shall not be over-tapped or over-worked.

(*d*) In no date trees shall the initial incision be made at any point within four feet from the ground or eighteen inches from the top of any other incision except in places where permission is specially given by the Deputy Commissioner.

(*e*) The depth and width of the incision shall not exceed one-third of the diameter of the tree, and the length of it shall not exceed eight inches.

(*f*) The central spike-like clusters shall not be touched. Of the lateral leaves not less than two layers of leaves shall be left, reckoning from the layers immediately

next to the central clusters down to the top line of the incision; or in other words, above the top line of the incision not less than eight leaves shall be left excluding the central spike-like clusters, on that face of the tree on which the incision is made.

(g) The licensee shall not cut or injure or permit to be cut or injured the trees licensed to him or any other trees.

(h) The licensee or his employer will be liable to pay a fine of two rupees for each tree, which may die from over-tapping or careless tapping either during the lease or within six months after its expiration. The fine will be levied on trees found dead at the close of every quarter. He will be liable to pay a similar fine for every tree which he prepares for tapping if it dies in consequence of such preparation before he taps it.

(i) The licensee will not be entitled to compensation for any trees withdrawn or taken up for public purposes or for any trees standing on the banks or beds of irrigation works under the control of the Public Works Department which that department may require to cut down or strip of their leaves or branches.

(j) When the licensee makes default and his shop is re-sold, or otherwise disposed of his rights to and claims on all toddy-yielding trees for the purpose of tapping cease and determine.

(9) The licensee shall not interfere with the persons holding license for cutting date leaves for mat-making, rope making, basket making, or for agricultural or other purposes when they make use of the trees assigned for such purposes, and not reserved for tapping.

(10) Deputy Commissioners may, subject to the orders of the Excise Commissioner from time to time, prescribe the minimum number of trees for which license will be granted, and the minimum number to be entered in a single application. They may also direct that the trees situated in one village only shall be included in an application.

(11) The distillation of spirit from toddy is absolutely prohibited.

(12) If the licensee of a group of shops wishes to transport the toddy intended for his several shops *in one consignment*, he should obtain a depot license and carry the toddy to this depot with the usual permit. The toddy intended for each shop shall be distributed in accordance with the permits granted for transport from the depot to the shop. The permits issued with the toddy transported shall be subject to examination and check by the officer authorised in this behalf.

(13) Tree-foot sales or sales in the open or the disposal of toddy in any other manner unauthorised by the rules, are strictly prohibited. Provided, however, that in Bagani tracts, the licensee who has purchased the right of vend of Bagani toddy, may permit the tapping of Bagani trees for domestic consumption as well as for sale within the limits of the village purchased by him.

(14) The licensee or his vendors shall not sell to any person more than three measuring seers of toddy to be consumed by the person at one time in the shop, nor shall it be sold to the public at less than the retail rates fixed by Government and mentioned in the schedule. Toddy can be removed without a permit for consumption up to the limit of one imperial gallon or four seers.

(15) In every grove where toddy-yielding trees are tapped, a ladder shall always be kept by the tap-man to enable Excise Officers to examine spathes or incisions as the case may be.

(16) The licensee shall pay the usual mohatarfa tax on carts used for conveying toddy but such carts shall not be impressed for Government work.

(17) The following rules shall regulate the issue, etc., of licenses under Section 12 of the Mysore Excise Regulation, V of 1901, for the tapping of toddy producing trees and for the drawing of toddy therefrom :—

1. Tree-tapping licenses in the prescribed form shall be issued on the application :—

(a) of licensed toddy shop-keepers or of their duly authorised agents;

(b) of toddy shop-keepers or renters in the Madras Presidency; and

(c) of malnad land-holders free of the prescribed tree-tax for drawing toddy for *bonâ fidè* domestic purposes as per Government Order No. Fl. 7473-83—S. R. 248-12-7, dated 11th June 1917.

(1) The maximum number of trees allowed to be tapped free of tax for *bona fide* domestic consumption such as bread-making, etc., will be as below :—

Coffee Planters	Three	(Annually).
Kanholders	Two	do
Hiduvalidars	One	do

(2) Coffee planters may be allowed to open an estate shop subject to minimum shop rent of Rs. 3 per month.

(3) Kanholders may also be allowed to open shops in their holdings on the same terms, provided that they show to the satisfaction of the Deputy Commissioner that they have a legitimate demand for such shops for the use of their coolies and dependents.

The licenses may be issued in the name of the applicant himself or of his nominee.

2. Application for the grant of tree-tapping licenses must be made in the prescribed form to the Excise Inspector of the Range concerned through the local Treasury. Forms may be obtained from him or the Assistant Inspectors under him. Applicants must first pay the first instalment of tree-tax together with the tree-rent on Government trees due on account of the trees which they desire to tap.

3. The tree-tax on toddy produced by trees in the Madras Presidency, but consumed in the Mysore State, will be credited to the Mysore Government. The rate of tree-tax to be paid in such cases will invariably be the highest in force on either side of the frontier. Tree-tax on trees in the Madras Presidency for which tapping licenses are about to be taken out by Mysore shop-keepers, must be paid in one instalment to the Amildar of the taluk concerned in the Mysore State, who will grant a receipt in the prescribed challan form and certify at the foot that the applicant is a person entitled to take out tree-tapping licenses. The applicant will then make his application to British authorities in accordance with the Madras Government Tree-tapping Rules; and will obtain a transport permit from the Inspector concerned in the Mysore State, for the transport of the toddy drawn from the frontier to the shop or depot for which it is intended, after having complied with all requirements of the Madras Government Rules. The British and the Mysore Governments reserve to themselves the right to impose in addition to the tree-tax, a rent for the use of trees belonging to them, the same when imposed being payable by British and Mysore Licensees alike. The arrangements agreed to by the Madras and Mysore Governments with regard to the issue of the licenses for tapping trees in either territory on the application of shop-keepers in the other do not prevent the reservation of trees in any specified area, in the Madras Presidency or in Mysore State, with a view to afford rest thereto or for other sufficient reason and the mere payment of tree-tax into the British or the Mysore Treasury does not entitle an applicant to tapping licenses for trees so reserved.

4. Applications for tree-tapping licenses, for trees in occupied or alienated lands, should be countersigned by the owner of the trees intended to be marked, in token of his consent to the trees being tapped and to holding himself liable for the tree-tax in case the license-holder fails to pay it and such countersignature shall, in the case of illiterate owners, be attested by the patel or shanbhog of the village in which the trees stand. Applications for tree-tapping licenses for trees in the State Forest and plantations should be countersigned by the Forest Range Officer in token of his consent.

5. On receipt of an application, the Inspector will at once take steps for the marking of the tree by an officer superior in rank to a Sub-Inspector or, in special cases by an officer not inferior in rank to a Sub-Inspector and for the timely issue of the license and transport permits as detailed in the T. T. Rules. Applicants for date trees shall get the requisite space on their stems prepared and point out to the marking officer, when required by the latter to do so, the trees applied for by them. Should they fail to do so, after reasonable notice, the tree-tax and tree-rent paid by them shall be liable to be forfeited at the Deputy Commissioner's discretion.

6. No trees shall be tapped, nor shall toddy be drawn from any toddy tree, nor shall any pot be attached to any toddy tree until the tree has been marked by the proper officer. But the removal of leaves for the purpose of making incisions and the preparation of the spathes or spaces for the drawing of toddy is permitted as soon as the application in the prescribed form has been delivered to the Treasury concerned.

7. For date trees, tapping licenses and transport permits shall be issued current for four months subject to the condition that this limit of four months shall not extend to any period beyond the close of the lease. In the case of other palm trees (cocoanut excepted), the period shall be annual. Tapping licenses and permits for cocoanut trees shall be half-yearly, *i.e.*, from 1st July or any

subsequent date to 31st December next and likewise from 1st January or any subsequent date to 30th June next. If the same cocoanut tree licensed in the first half year is intended to be tapped in the second half year as well, tree tax will have to be paid for again. For the convenience of the licensee, the application for tree tapping licenses will be received, trees will be marked and licenses will be issued during the fifteen days previous to 1st July 1918; but pots shall not be attached before the evening of 23rd June.

8. Between sunset and sunrise no toddy shall be drawn or kept by a person holding a license under these rules in the garden or field in which stand the trees which he is licensed to tap. The Excise Commissioner may relax the restriction in any local area on sufficient cause being shown. This will not apply to toddy contained in the pots attached to the spathes of the trees.

9. The following shall be the fees payable on account of each tree for the tapping of which license is applied for:—

Description of trees.	*Rates of tree-tax per tree per annum.* Rs.	a.	p.
Date	2	4	0
Cocoanut	6	0	0
Palmyra	2	0	0

10. The tree-tax shall be payable in the following instalments, unless the Excise Commissioner shall otherwise direct:—

Between 1st July 1918 and 31st March 1919.	One-half ...	The remaining half
